SUN'S RISING AND SETTING.

For any other place, take the same line as the town in the same latitude as the place wanted.

The Jarman's

Saddlery Company.

Under the Personal Supervision and Management of

R. E. JARMAN, late of Queen Street, Brisbane.

ONLY ADDRESS:

East Street, Rockhampton.

GARDENING AND FARMING CALENDAR.

Written for the Colony of Queensland, and embracing the range of
Field, Plantation, Kitchen, Flower, and Fruit Garden;
also the Bush House.

Revised by MR. WILLIAM SOUTTER, Brisbane.

As seasons alter considerably from time to time, a little common sense will be needed to apply the directions herein given; also localities, latitudes, and situations must be duly considered, or the very best of advice will prove misleading. To say that one month here agrees with another in Great Britain is pure fiction. Queensland winters, in many parts of the colony, much resemble English summers; and especially is this true of the North of the colony. Some portions of Southern Queensland, notably the higher portions of the Darling Downs district, very closely resemble—both in climate and productions—the more southern latitudes. In the warmer districts of the North where the progress of vegetation is much more rapid and the summer at least a month earlier than in the southern portions of the colony, nearly all garden and field operations may be performed considerably sooner. In the tropical North it has been proved useless to attempt many of the ordinary spring and summer crops of the South owing to the unmitigated heat of summer both by day and night. Even maize is more a failure than a success generally as a summer crop, and the vegetables found to be profitable require to be mostly of a tropical character. In a more temperate climate, such as that of the Darling Downs, it may be necessary to defer these somewhat; and in still colder and later districts such as the neighbourhood of Stanthorpe, further allowance will require to be made.

JANUARY.

Kitchen Garden.—Do all sowing and transplanting immediately after rain, and whilst the ground is in a mellow state. Small sowings may be made of carrots, celery, cauliflowers, Brussels sprouts, cabbage, etc., in the cool districts of the colony. Should the weather prove favourable, plant out savoys, cabbages, cauliflowers, etc., selecting only the strongest plants, as the slender and weakly ones will not repay the trouble. Plant out celery in trenches which should be made about twelve or sixteen inches wide, twelve inches in depth, and four feet apart; the top spit should be turned alternately on either side, as this will be required in the after culture of the plant for earthing up. Six or seven inches of good rotten dung should be laid in the bottom of the trench and dug in; or, if the subsoil is bad, lay a few inches of rich vegetable compost over the dung. Lift the plants carefully, preserving a ball of earth at the root of each, and cut off the straggling leaves and side offsets. Plant in a row along the centre of each trench seven or eight inches apart. Planting is best performed in the evening, and a plentiful watering supplied; this should be frequently repeated if the weather prove dry. The seed should be sown in boxes, and when the plants are large enough to handle transfer them to the prepared trenches. Look over cucumbers, melons, etc., for the purpose of stopping and thinning out shoots. Hoe, stir, and water advancing crops; liquid manure will be found serviceable. Herbs should be cut for drying when at full growth and coming into flower—and some when in full flower, as lavender, marigold, and camomile, for their flowers only. Cut in dry weather, and spread or hang up in a dry airy place, out of the reach of the sun, that they may dry gently.

Fruit Garden.—Loosen the surface among fruit-bearing trees, mulch heavily to protect the surface roots from the sun. Examine vines, and regulate and remove all useless shoots, and gather the fruit as it ripens; thin superabundant

fruit upon orange trees. Some of the superfluous and ill-placed shoots may still be removed from peaches, plums, etc. Oranges, lemons, peaches and all kinds of fruit trees may now be budded.

Flower Garden.—Continue to regulate carefully the growth of climbers, but avoid tying them too close, and allow them to grow according to their natural habit as much as circumstances will admit. Examine dahlias, etc., and see that the early ties do not pinch; loosen them if they do, or the wind will easily break them at that point. Stake and tie all tall-growing plants, and cut back pelargoniums that have done flowering. Beds of verbenas, petunias, and pelargoniums should be kept free from weeds, and, if freely supplied with water in dry weather, will flower much better. Sow *Amaranthus*, *Celosia*, *Centaurea*, *Browallia*, etc. for autumn decoration in vacant places. Propagate carnations and pinks by layering. Those who require large blooms must now attend to disbudding, leaving one, two, or three, according to the strength of the plant. Roses may now be budded, and cut off all decaying flowers and flower stems, and destroy insects.

Bush-house.—Where any attempt is made to cultivate pot plants a bush-house is absolutely necessary, and is one of the most enjoyable appendages to a good garden. At this season it should be in perfection. Palms, ferns, and lycopods should be at their best; also *Caladiums*, *Gloxinias*, *Begonias*, *Achimenes* and *Fuchsias*—all of which should be given a little manure-water twice a week. In applying manure-water, "weak and often," is the principle of success. It is not the best season for making additions or alterations to these structures, but there is no portion of the year when additions in the shape of ferns or orchids may not be made. In North Queensland, particularly, some very choice and rare retreats, with good collections of valuable plants, should, in course of time, become common. Pot-plants are not absolutely necessary to make an attractive bush-house; the most satisfying one possible can be had by growing everything naturally, either in the borders or according to nature.

Field.—Break up land for wheat in the Southern district; sow barley for green crop; plant maize not later than the middle of the month for a winter crop, in rows four to five feet apart according to the nature of the soil, and three feet distant in the row. Make a sowing of Imphee or Farmer's Friend, Pearl Millet (*Pennisetum spicatum*), Johnson Grass, Teosinte (*Euchene luxurians*), Guinea grass, and Italian rye-grass; these are most useful fodder plants, which cows are very fond of, and they will give twice the milk and butter on this feed. Sow millet and maize for green feed—these furnish fodder in enormous quantity; to be sown thinly broadcast; one seed produces several stalks. Dig up the early crop of potatoes if not already done, and those intended for seed should be exposed to the atmosphere a few days before being stowed away. In the North, English potatoes only succeed during the winter, and must not be put in before March or much later than June. Sweet potatoes may, however, be planted at any season of the year within the tropics when moisture favours. Persevere in keeping down weeds on cotton and sugar plantations, and for this purpose the cultivators should be kept going as long as the crop will admit of it. Ginger may be taken up when young for preserving purposes only. Tobacco will now ripen and should be gathered.

FEBRUARY.

Kitchen Garden.—The practice of keeping the ground loose and open about growing crops is very advantageous to them, more especially in stiff soils, as it materially assists the absorption of moisture. Larger sowings of a few vegetables may be made now than last month, such as cabbage, brocoli, turnips, carrots, onions, leeks and salads. Thin out turnips, sown last month, to about twelve inches apart. Plant out Brussels sprouts. Do not forget to earth up advancing crops of celery, and plant out for succession. Continue to gather cucumbers and various articles for pickling. Eschalots should now be taken up

as soon as the leaves begin to decay. Prepare all spare ground for future crops, always bearing in mind that upon next month's operations the winter supply of vegetables depends. Dig in all failing crops as they become unprofitable, as all vegetable refuse will help to enrich the soil. The practice of burning superfluous vegetable matter is a sinful waste, entirely out of harmony with nature; nature's method is slowly to decompose it and return it again to the earth as plant food. Cucumbers and melons must be frequently thinned and stopped. In earthing up celery let it be done in dry weather, and when the plants are also dry; lay the earth lightly to the plants, taking care not to break down the leaves, and also not to bury the hearts of the plants.

Fruit Garden.—Oranges, peaches, etc., which were too tender to be budded last month, may now be subjected to that operation, but it should not be deferred later than this month. Any trees that have been previously budded and failed may be worked again. Go over the stocks that were budded last month, and let all the ties be loosed. During dry weather gather grapes, etc., and store away as desired. Plant out strawberries in well-trenched and manured ground. Take the strongest runners up with a trowel; trim away a few of the under leaves; plant in rows two feet apart and twelve to fifteen inches in the row, keeping them well-watered until rooted. The best strawberry growers always contrive to make the bed as hard as possible, only leaving a small space close around each plant at all loose. The strawberry likes a strong soil bordering on clay, which must, however, be well drained. Anywhere within the tropics bananas and pineapples may still be planted, and also all manner of tender tropical fruits if in pots; but in putting them out a good protection from the scorching rays of the sun should be furnished until they are well established in their new quarters.

Flower Garden.—The beauty of a flower garden may be greatly enhanced by a judicious arrangement of plants and contrast of colours; and the trouble of occasionally noting any improvements that may be made in contrasting the colours of the dahlias, verbenas, etc., so as to produce a better effect another season, will be well repaid. Many of the finest plants are now in perfection, and by observing them in different situations an idea may be formed of how they may be placed to the best advantage. Caladiums, Coleus, Amaranthus, etc., may be planted out either in beds or vacant places among shrubs in the borders; the beautifully-coloured foliage, when well arranged, produces a fine effect during the autumn months. Tie up chrysanthemums and other tall-growing plants; remove all decaying flowering stems, and keep walks and borders neat. Where strong-growing annuals produce rambling shoots near the ground, they should be trimmed. This will cause them to form handsome and regular heads, and to show themselves to greater advantage than if the branches were permitted to spread near the ground. Sow Brompton and Ten-week Stocks, Phlox Drummondii—one of the most beautiful annuals cultivated—Dianthus, Myosotis or Forget-me-not, Pyrethrum, Pansies, Sturt's Desert Pea (*Clanthus Dampieri*), and all kinds of annuals for spring flowering. Layer roses, camellias, carnations, and picotees—in fact all plants that it is desired to increase by this means. In the warmer districts of the colony it is necessary to make some artificial shade to grow many of the choicest annuals, but enthusiastic lovers of these pets will be amply repaid for the trouble by the result. The shade, however, must not be a living one. This month and the next are the best for the work, for if left later the heat of summer overtakes them before they have reached their prime and then they are done. Bulbs that have flowered may be taken up and stored in a suitable place till the proper season for planting them.

Bush-house.—If the usual moist heat of this month is experienced, plants in the bush-house will be making luxurious growth. Towards the end of the month gradually withhold manure water; as all kinds of bulbous plants show signs of going to rest, give them less water. Put in first batch of fuchsia cuttings, which will form good bushy plants, and flower early in spring. Put in coleus cuttings

for stock, and as the old plants become shabby throw them away, for they are never worth keeping over one season. Gloxinias, Achimenes, and Tydeas now flowering will be the better of an occasional watering with weak liquid manure. The shade furnished in the bush-house affords an opportunity for sowing many things in seed pans or boxes, but they must be watched so that the plants do not become weakly and drawn.

Field.—The different kinds of sorghum should be cut as they arrive at maturity, and the seed preserved in an airy building. Green provender for winter use is to be provided by sowing broadcast the various Sorghums, Imphees, and Millets; also the well-known *Setaria Germanica*, or, as some call it, Panicum; also Cape barley, lucerne, oats, etc. Tares and vetches may, in cool weather, be sown for the same purpose, and in order to support the weak stems of the vetches, they may be mixed with a bushel of rye seed to every two bushels of tares; these will only succeed on the Downs. The following variety of turnips may be sown:—Skirving's purple-top swede, Sutton's champion purple-top swede, long white French and green-top yellow. The potato seed prepared last month should now be planted, and this is the best time for planting a main crop. Most of the American varieties thrive well in Queensland, especially Early Rose, Late Rose, Brownell's Beauty, Beauty of Hebron, Snowflake, Early Vermont. Districts are known to suit one variety better than others, so the common sense and observations of cultivators must be thoroughly utilised to make the most of what they have. North of Mackay, potato-planting is not to be recommended for a month or two from this.

MARCH.

Kitchen Garden.—This is the best season to ensure a good supply of vegetables for winter use by sowing onions, leeks, peas, turnips, Early Horn carrots, parsnips, beet root, cabbages, cauliflowers, savoys, etc. The January sown cabbages will now be ready for transplanting. Prick out these as soon as they are large enough, and earth up those advancing. Thin out the plants regularly from the seed bed, observing to take the strongest first; the smallest may be left in the seed bed longer to increase in strength. Continue to sow in succession several sorts of small salad seeds, such as mustard, cress, radish, etc. When a constant supply of these are wanted, there should be some seed sown once every week or fortnight. Draw flat shallow drills, sow the seeds pretty thick, and cover them about a quarter of an inch; in dry weather they must be watered. Cauliflowers and Brussels sprouts may also be planted out. Reject such whose stems are crooked. Earth up crops of celery which are planted in trenches, as they advance in growth, that they may be blanched to a proper length. Trench, manure, and prepare any vacant ground for future use, leaving the surface in a rough state. Plant asparagus and rhubarb beds; both require a rich, deep, and fairly moist soil. In warm situations the rhubarb is better for shading.

Fruit Garden.—Trench and prepare ground, either by the spade or with plough and subsoiler, at least eighteen inches in depth for planting fruit trees, so that the soil may be in a fit state when required. Gather fruit as it becomes ready, and frequently examine any already stored. In the fruit rooms see that the shelves show no symptoms of decay or mould about them, otherwise the odour will be communicated to the fruit. If the weather be dry, it will be necessary to water plentifully the strawberry beds planted last month. The buds should again be looked to; young shoots tied and suckers removed.

Flower Garden.—Now is the best time for planting most kinds of bulbs, such as Narcissus, Gladioli, Tritonia, Watsonia, Sparaxis, Ixia, Anemones, Ranunculus, Hyacinths, Amaryllis, Lilliums, etc. Soil and manure for bulbs; procure some one or two years' old cow-dung—say, to three barrows of cow-dung add one barrow of good sharp sand, well mix together; draw a drill four inches deep and four wide for the smaller bulbs, and twelve for the larger ones; fill the drill with the dung and sand, mix it up lightly with the soil, make it firm by

pressing down, and plant the bulbs—the small ones two inches deep and the larger ones three inches—covering the whole of the bulb or tuber. Plant *Ranunculus* twelve inches apart, and the larger growing ones eighteen inches. Patches of showy annuals should now be sown in vacant places which exist about the edges of borders. The following are some of the best:—Various species of *Calliopsis*, *Gaillardia*, *Lupinus*, *Phlox Drummondii*, *Zinnia*, *Aster*, *Candytuft*, *Larkspur*, *Schizanthus*, *Scabiosa*, *Stocks*, *Marigolds*; and herbaceous perennials, such as *Phlox*, *Dianthus*, *Alternanthera*, *Iberis*, *Pyrethrum*, *Statice Halfordii*, *Tritonia uvaria*, *Myosotis*, *Salvia*, *Peonies*, etc., may be increased by dividing the roots. Roses may now be pruned and the suckers removed. Within the tropics leave pruning until June. In pruning roses cut back to two or three inches above the origin of the young wood; robust growing kinds should not be pruned so severely as the weaker ones. Strong shoots of many roses, if pegged down on the surface to nearly their full length, will throw out numerous flowering shoots. Carnations and pinks that have struck from pipings or layers may be planted out as soon as they have rooted. Cool shady borders are best for these everywhere in Queensland.

Bush-house.—*Caladiums* and *Gloxinias* require special care in watering; and as the various kinds go to rest, turn the pots on their sides in some dry corner of the house. Early in the month sow *Calceolaria*, *Primula*, and *Cineraria* seed. Farther north than Mackay success with these florist's flowers is dubious, especially the first two. *Calceolaria* seed is very small, and consequently often difficult to raise. It should be sown in pots, well drained with any kind of rubble, and filled to within an inch of the rim with light sandy soil, which should be well watered half an hour before sowing. The seed may then be sprinkled thinly on the surface, and will require no covering with soil. The pots should then be placed on coal ashes in a shady spot, and the top of the pots covered with a piece of glass. No water must be given until the young plants appear, when the glass should be gradually tilted on one side so as to admit air, and water through a very fine rose when required. This method applies to the raising of all small and delicate seeds.

Field.—*Lucerne*, *Italian rye-grass*, and other artificial grasses may be sown for pasture or hay. The soil must be well prepared; harrow the seed in with a light harrow, and if rolled so much the better. Wheat and oats may now be sown. This is an excellent time to plant a crop of potatoes. Maize should be gathered when ripe, and stored in a perfectly dry and well-ventilated building. Gather cotton as it comes to maturity, and gather and house tobacco when ready. This is the best month to sow artificial grasses and renew pastures; but the indigenous grasses are best sown in August. The following is a list of imported grasses that have done well in Queensland, more especially on the Darling Downs:—*Perennial rye-grass*, *cock's-foot grass*, *prairie grass*, *Timothy grass*, *sweet-scented vernal grass*, *meadow grass*, *Kentucky blue grass*, *foxtail meadow*, *crested dogtail grass*, *fescue meadow*, *fescue sheep*, *fescue—red or creeping*. The following fodder and pasture plants have also been successfully grown in this colony:—*Clover: White, alsike, and scarlet*. The quantity required of these is from two to two and a-half pounds per acre. Also *clover—red perennial*, *lucerne*, *sainfoin grass*, *common bent grass*, *Italian rye-grass*, *woolly soft grass*, *pearl millet*, *Phillips' panic grass*, *buffalo grass*, *Guinea grass*, *prickly comfrey*, *Texas blue grass*, *sheep Burnett*, the good scaroo bush of Africa, and *panicum miliare*. *Prairie grass* is specially valuable in the winter and spring months, when other green feed is scarce.

APRIL.

Kitchen Garden.—Make sowings of peas, broad beans, cabbages, salading, etc. Be careful to thin crops of turnips, carrots, spinach, lettuce, etc., before they become weakly and drawn through standing too closely together. Celery should be earthed up as it advances in height. Before earthing, for which take advantage of dry weather, the ground should be well watered the day previously, and the soil should be broken up fine, and care taken not to allow any soil to get into the

heart of the plant. Stir the surface of the soil deeply among growing crops, to admit air to the roots, and keep down weeds. Any spaces of kitchen garden ground which are now vacant should, when required, be manured and trenched for the reception of future crops. Gather pumpkins and store in a dry place. Where rhubarb and asparagus are desired, now is the time to make ready for them by deep trenching and manuring, and then sow seed of good varieties where they are to remain, thinning them out as necessary afterwards. Asparagus may be grown even farther north than Mackay, but rhubarb is not thrifty even at Rockhampton, and seldom survives the summer.

Fruit Garden.—New plantations of oranges, loquats, bananas, pineapples, etc., may now be made, in order that the roots may take hold of the soil before winter, care being taken to mulch the surface around the young trees with boughs; freely water should the weather prove dry after planting. Strawberries may still be planted; the old beds should now be cleared of all runners, the surface soil stirred about them, and receive a top-dressing of well-rotted manure, which will prove beneficial in promoting strength; and if in dressing these plants the main plants are not allowed to stand singly, nor permitted to straggle all over the bed, the quality of the fruit would be much improved. Oranges may now be planted; avoid planting those grafted on the Lemon stock. The soil best suited for the successful growth of the orange is a rich chocolate on a dry substratum, and if upon hilly slopes of volcanic origin, so much the better. The success of the orange depends as much upon situation and soil as upon latitude, and hence the difference in productiveness and quality of the fruit of the same variety. The neglect of these conditions, for example, will convert the St. Michael orange, one of the finest flavoured, into a bitter and nauseous fruit. Although there is no difficulty in finding soil in sheltered situations in nearly all parts of Queensland, still as a general rule it would be better in selecting sites for plantations to choose easterly aspects, that being the surest protection from the cold westerly winds. The land should be well turned up, trenched, and left in ridges a few months prior to planting. If the subsoil is cold and wet, the trenches should be from two to two and a-half feet deep; but where the bottom is gravelly or hard, eighteen inches will be sufficient; and if the soil is of an inferior quality a compost should be prepared of virgin soil, mixed with manure and a good dressing of bone dust for the purpose of filling up the beds. The trees should be planted from twenty-five to thirty feet apart, according to the quality and situation of the soil; and during the following summer, when the dry weather sets in, mulch round them to a distance of at least three feet radius; keep the ground loosened on the surface all the year round, and water thoroughly before the young trees begin to suffer from drought. In pruning, care should be observed not to remove the young fruit-bearing shoots of the previous year's growth which will bear during the present. All varieties of the orange thrive well in Queensland—the Bahia or Navel, Blood, Siletta, St. Michael's, Thorny Mandarin, Canton Mandarin, Emperor of China Mandarin, Parramatta, Queen, and Washington Navel. One of the finest mandarins in the colony is the Beauty of Glen Retreat. Lemons, unless grafted on the Orange stock do not succeed in Queensland; the best sorts are the Lisbon and Malta. The West India lime and the Persian or sweet lime also thrive admirably and should be largely cultivated. All deciduous fruit trees that have shed their leaves may be pruned. Look carefully over fruit which has been gathered, as it will require considerable attention the first few weeks; in gathering, care must be taken to pick every variety at the proper time. Care should be exercised in gathering not to shake it from the tree, but to take every fruit singly, handling it as if it were an egg. If these precautions are observed the fruit will be much improved for keeping. There would be a much better market for fruit if the growers bestowed more care on the gathering. Fruit will not keep that has been bruised, and one damaged fruit in a box will tend to destroy the whole lot.

Flower Garden.—The present month is a favourable time for transplanting large-sized evergreens, shrubs, trees and also herbaceous plants, as they will now make fresh roots, and be better able to resist the cold, dry winds of winter. Plant and clip hedges. Plants removed this month will require much less attention than if transplanted late in winter. Continue to plant bulbs of various kinds. Proceed with the propagation of favourite kinds of roses, either by cuttings or layers, and remove suckers from budded plants. Take up dahlias that have done flowering, when they have died down; dry the tubers, and stow them away amongst dry earth or sand in a dry and airy place. In showery weather plant out annuals of all kinds for winter and spring flowering, and divide perennials as in last month. Carnations, picotees, etc., may be propagated from pipings or cuttings. Borders and beds may be made, and every part of the garden should be kept as clean as possible. The annuals recommended to be sown last month may still be tried if not already in.

Bush-house.—If sown as previously advised, primulas and cinerarias will will now be ready for picking out into well-drained beds of light soil with plenty of manure. Rotten hops are excellent for this purpose, covered with about half an inch of soil, into which prick out the seedlings. The roots will then penetrate into the hops and will lift, when required for potting, with good balls, and with little or no injury if done with care. Look after caladium bulbs and store them when ripe in some dry place. The best plan for keeping them through the winter is to stack the pots on their sides.

Field.—This is generally the busiest time for cotton gathering; it should be picked immediately after the pods burst, and before being wetted by rain; any damp cotton should be carefully sun-dried before storing. Great loss is frequently sustained by allowing the cotton to remain too long on the plant. Maize and different kinds of sorghum should be gathered as they ripen, and stored in a dry place. Potatoes will require to be earthed up and kept free from weeds. Full crops of maize and English potatoes may be put in anywhere North now. Sow flax, fodder plants and grasses, if required. Sow wheat, oats, barley, vetches, rape, buckwheat, field peas, and onions in the colder parts of the colony; plough land for Spring crops in the early districts.

MAY.

Kitchen Garden.—Earth up celery; attend to keeping up a succession of turnips, carrots, beet, parsnips, and a supply of salading. Plant out cabbages; hoe and loosen the ground between the rows of cabbages, etc., already planted, which will kill weeds and vermin, and greatly assist the growth of plants. Transplant cardoons, onions, leeks, etc. Strawberry beds may still be made. Peas and beans may be sown for early crops. Asparagus beds should be cleaned and dressed; clear off all weeds, and cover the beds with a good coat of rotten horse-dung. Rhubarb beds require a good dressing of manure. Rhubarb should be planted in deeply-trenched and well-manured ground; it succeeds best in rich deep soil, rather light than otherwise; it may be raised from seed, but the mode of propagation generally adopted is by division of the roots. Plant three feet apart, in rows from three to four feet asunder. The cutting and drying of herbs as they mature should be attended to. Continue to prepare all vacant ground by digging and trenching, especially that intended for root crops.

Fruit Garden. Look over pineapples frequently, and gather them as they ripen. Plant orange, peach, and other varieties of fruit trees, and the planting should be completed by the end of this month. The sooner the trees are planted the better. Be careful that the soil is neither wet nor retentive of water—no soil intended for fruit trees should be. In such cases it should be thoroughly drained before planting. Without this it is useless to look for success in fruit growing. In planting be careful to keep the roots near the surface; they are sure to find their way deep enough, and by way of steadying them in the soil drive a good stout stake. A good rule is to plant them just as deep as they had previously been in

the nurseries, which is easily ascertained by observing the collar where the portion that had been under the soil exhibits the bark much smoother and paler than that which was above it; but allowance should be made for the soil subsiding, which it will invariably do. See that the surface is well mulched all round newly-planted trees, in order to protect the roots from atmospheric conditions which at times are too powerful. Orange trees should be thinned. Pineapples require a loose rich soil, and should be planted in rows, 6 to 8 feet apart and 18 inches from plant to plant in the row. Plantations should always be in sheltered localities, that is to say, protected from the cold westerly winds, but still open to the early and continuous sunshine. In the dry weather they require a liberal supply of water, and occasionally a considerable dressing of manure. When an overgrowth of suckers takes place, the smaller and inferior ones should be removed. Generally the Queen is the most prolific producer, well flavoured, hardier, and quicker in coming to maturity than the others; but for winter months the Smooth-leaved Cayenne is the next in rank, being a liberal producer during the cold winter months of the year, and having a very large and well flavoured fruit. Fruit trees, vines, etc., that have shed their leaves, may be pruned. Look carefully over fruit that has been stowed away, as it will require more attention the first few weeks after being gathered than afterwards.

Flower Garden.—Camellias are now beginning to flower, and during the next two months will stand unrivalled amongst shrubs for beauty. The following twelve varieties that are deserving of cultivation, are:—Alba-pleno (white), Fimbriata (white), Isabella (white), Incarnata, Lady Hume (blush), Leda (delicate blush), Lady St. Clair (pink), Charles Albert (pink), Edith (rose pink), Emma (deep rose), Queen of Denmark (crimson), Countess of Belmore (crimson), Miniata (crimson). The best soil for the camellia is a strong well-drained loam, with a good mixture of decayed vegetable matter. When the camellia is showing for flower, it must be supplied with an abundance of water. Any roots of dahlias that still remain in the ground should be taken up. See that chrysanthemums and other tall plants now in flower are well staked and tied. Bulbs may now be planted. Shrubbery and flower borders may receive a fresh dressing of soil and manure where necessary. Attend to roses. Good deep soil, well trenched and manured, is required for the rose, either in garden beds or roseries. Those in pots should be planted out, and the knife should be freely used in pruning. Remove superfluous flower buds and thin shoots, when these should be thinned out so that the head of the tree is not at all crowded, and then be shortened to within twelve buds of the base; a crop of fine flowers will be the result.

Bush-house.—Gradually withhold water from the plants as the weather becomes colder. Examine the drainage of all large-growing ferns, palms, &c. Give camellias in pots manure-water, especially those that do not readily open their flowers. Make sure the drainage is all right.

Field.—Cotton gathering must be diligently attended to throughout the month; the third crop of tobacco should now be ready, and the cutting, housing and curing of this are subjects of considerable importance. In the North tobacco planting is regularly done during this month or the next. Ginger and arrowroot will be ready to be taken up in early situations. Sow broad beans, field peas, cabbage, chicory, and gram. Oats, wheat, and barley may still be sown in the late districts. Potatoes will require to be earthed up and kept free from weeds. Artificial grasses may still be sown for permanent pasture and succession of other crops.

JUNE.

Kitchen Garden.—Wherever drainage is necessary, the work of cutting drains and trenches should be vigorously proceeded with, when the ground is in a fit state for doing so. In stiff and retentive soils a thorough and efficient system of drainage is of the greatest importance; in very light or sandy soils it is not so necessary. Sow peas, beans, carrots, parsnips, spinach, onions, leeks, beet, cabbage, Swede and

white Pomeranian globe turnips, cauliflower, and lettuce; also parsley and other herbs. Thin and transplant onions sown last month. Plant strawberries, rhubarb, sea-kale, etc., always taking care that the ground has been well worked and manured. Plant a few early potatoes. Earth up celery, when the soil is not too wet; this crop will require the ground to be well trenched, manured, and well supplied with water. Trench and manure all spare ground, and hoe between growing crops of vegetables, a free use of the hoe at this season being beneficial to the plants.

Fruit Garden.—Pruning the apricot, peach, nectarine, pear, apple, mulberry, cherry, plum, etc., should be proceeded with. The peach, nectarine, and apricot require a different pruning to the apple, pear, plum, and cherry. The former produce their fruit upon one-year-old wood. The apple, pear, plum, and cherry bear principally on wood of one or two-years'-old spurs, and when a proper head is formed of branches they require but little pruning. The apple, pear, plum, etc., do best in a well-drained, compact loam, which should be thoroughly sweetened by working in dry weather before planting. The varieties recommended are those which have shown themselves most adapted for cultivation in this colony, viz.:—*Plums* for colder parts of the colony, especially the Downs, near the Main Range, from Stanthorpe northwards—Angelina Burdett, Black Damson, Bryanstone Gage, Denison's Superb, Greengage, Yellowgage, Magnum Bonum, Early Orleans, Imperiale de Milan, Coe's Golden Drop, Jefferson, Kirk's Golden Yellow. *Plums* for the coast districts—Wildgoose, Huling's Superb, Washington, Newman, Kelsey, Blood, Red Heart, and most of the Japan Plums. *Apricots*: Moore Park, Turkey, Large Early, Breda, Mansfield Seedling, etc., are only of service on the Downs. *Nectarines*: Red Roman, Stanwick, Albert Victor, Newington, Victoria. *Peaches* for the Downs—Alexandra Noblesse, Alexander, Amelia, Briggs' May, Chinese Cling, Columbia, Crawford's Early, Early Beatrice, Fleita's St. John, Heath, Dr. Hogg, Grosse Mignonne, George the Fourth, Hale's Early, Morris' White, Royal George (true), Rivers' Early, Stump-the-world, Piquet's Late, President Church, Pineapple. *Peaches* for the coast districts—Chinese Cling, Common China, Flat China, Fairholme, Honey, Chinese Free, Coxen's China, Mowbray's China, Newington, and many seedlings from the Flat China and Early China, which are more or less distributed through the coast country, and many of which are really good. *Quinces*: China, Orange, Rea's Seedling, Common. *Pears* for the Downs: Pears of almost every variety can be grown on the Southern Downs at Stanthorpe. *Pears* for the coast district: China, Le Conte, Kieffer's Hybrid. The two latter are hybrids between the old China and some good European kinds, and are as handsome, healthy, and productive as the China, with fruit of greatly improved quality. Some of the European pears, when worked on the quince, bear a few fruit in the coast districts. The apricot, almond, and nectarine, and also many plums, pears, and apples, give very little satisfaction in the colony except on the Darling Downs.

Flower Garden.—Cold nights may now be expected; any choice tender plants liable to injury from frosts or low temperature should be carefully protected when there is the least appearance of danger. Soft-wooded plants, for bedding-out purposes, such as Verbenas, Petunias, Heliotropes, etc., may be propagated, so as to secure a good stock for spring use; also Fuchsias, and other florist's plants intended for culture. Choose young tender shoots of all these, about two inches in length, as they will make better plants than larger cuttings. Cuttings of Pelargoniums must be taken from well-ripened wood. Also put in cuttings of Spireas, Poinsettias, Roses, Ligustrums, and shrubs and trees of all kinds that it is desired to multiply. It is a good plan to make a shady cutting bed for cuttings of all kinds, as it insures them receiving more regular attention and watering; and let the shade be dead, not the shade of living trees or climbing plants. The worst place for striking cuttings in any garden is under living shade. As a rule, cuttings of Pelargoniums, Geraniums, and Petunias fare best when put out at this season of the year where they are wanted to grow, so as not to be again

disturbed. Double Petunias may be regularly propagated that way, but if struck in a cutting bed and then transplanted, they bear the removal. Dahlia roots should be taken up and stored in a dry cool place, where no damp can reach them. Reverse the roots to allow the moisture to run out of the hollow stem. Grass lawns may now be formed, and h-dges and border edgings planted and any alterations with a view to general improvement undertaken.

Bush-house.—One of the first duties of the gardener is to anticipate any probable atmospheric changes that might prove detrimental to his stock, by removing all tender plants, from the bush-house to more sheltered positions, such as glass-house or frame, for their better protection. Many of the choicer ferns stand in need of such protection.

Field.—All artificial grasses for permanent pasture may still be sown. Lucerne, which upon suitable ground is a very profitable crop, and one which no farmer should be without, may be sown in deep and well cultivated soil; it will succeed best in rich moist land that is occasionally inundated. The White Clover thrives well everywhere south, but not much farther north than Brisbane. Crimson clover, Bretagne clover, cow grass, and Alsike clover are all advisable for cultivation in suitable localities. Sow Lang's Swede, Imperial Swede, and Imperial green-top turnip. Prepare ground for mangel-wurzel. Onions may be sown, and the earlier sowings transplanted. Land intended for potatoes should now be ploughed, and in warm situations a few may be planted. Sweet potatoes are now ripe, and should be taken up as wanted; yams may be lifted and stored. Great care is necessary in digging up the tubers of yams, as they often penetrate the soil to the depth of three feet, and are consequently liable to be injured by being cut or broken during the operation. Ginger and arrowroot may now be taken up.

JULY.

Kitchen Garden.—Trenching and preparing the ground may be proceeded with as in the last month and the necessity for the liberal use of manures cannot be too strongly urged where really first-class vegetables and fruits are desired. Sow cabbage, tomatoes, French beans, parsnips; also mustard and cress for salading. Cauliflower and lettuce may be sown and transplanted as required. Sow spinach for successional crops; former sowings of this may be thinned. Onions of previous sowings may be thinned and transplanted. For onions select a piece of ground in good condition; if the surface is not firm, render it so before sowing by treading or rolling. Sow largely of peas and broad beans, especially if you can give them water; of the former Sangster No. 1, Yorkshire Hero, Bedman's Blue Imperial; of the latter the Mazagan is the most moderate grower, and requires the least room; the Broad Windsor excels for flavour, and the Long Pod for quantity. Sea-kale and rhubarb may be planted in beds that have been deeply trenched and well manured. Asparagus beds may still be made and old beds lightly forked over. Plant Globe and Jerusalem artichokes; the latter prefer a rather strong soil, and, being very prolific, a small piece of ground will produce a sufficient quantity.

Fruit Garden.—The general pruning and thinning of the peach, nectarine, apple, pear, fig, mulberry, orange and vine should be finished. Grafting the orange, lime, lemon, citron, shaddock, etc., may be proceeded with towards the end of this month and during the next. Plant fruit trees as soon as possible. The present month may be regarded as the best for making new plantations of vines. Experience has proved that the vine will succeed in our poorest soils; but the best, however, is any soil composed, in part or whole, of granitic soil with an admixture of clay, gravel or sand, and a small proportion of vegetable mould resting on a porous substratum. Bone-dust is accounted a very good manure during the first year or two of the vine's growth—wood ashes are almost as good. In planting the vines, success in striking vine cuttings depends more upon the character of the season than upon the manner of preparing the cuttings. This

will be understood when it is said that prunings carelessly dug into the ground often grow as well as cuttings carefully planted. An important condition is that the base of the cutting be in close contact with the soil, and that the soil be closed around the cuttings generally. In gardens where water can be given on the occurrence of dry weather not a single failure need occur. Twelve to fifteen inches is a convenient space of well-ripened wood; two to three inches at the surface of the ground. The base is prepared by cutting the wood smoothly across below the joint. In the warmer parts of France shoots of the previous year's wood, from thirty to thirty-six inches long, are employed. The lower portions of these are laid horizontally in the ground, from twelve to fifteen inches deep, the top being brought up to the surface and a little above it. In dry seasons such cuttings would obviously stand a better chance of growing than others having only a few inches below the ground. Shoots intended for cuttings should be collected as they are cut, and at once laid into the ground and planted. The careful vigneron will study not to overtax the ground's capabilities by overcrowding, such as planting 2500 vines to an acre instead of 680 or 1200. This evil, especially in our climate, prevents the roots from spreading, and eventually causes the plant to die back until it loses all its productive vitality. There are various methods adopted in training the grape vines; some prefer the trellises; others the single stake and the gooseberry principle. For trellises procure sawn or split hardwood posts, three or four inches square by five feet long; place these eighteen inches in the ground, in rows, twelve to sixteen inches apart; bore half-inch holes for two wires—one in the top, the other midway to the ground—and use No. 12 or 14 galvanised wire. The single stake method is to procure hardwood stakes six feet in length and three inches square, placed six feet apart each way in straight lines. In the first year each plant should be cut down to the lowest, second or third, bud; the second year these shoots should be allowed to grow, one upright and the others horizontal for trellis, the latter being reduced to twelve or fourteen inches. The same principle of close pruning should be observed every succeeding year, care being taken, however, to give prominence to the main shoots or future stems. When the bunches of fruit just begin to show they should be thinned by nipping off with the finger and the thumb, to correspond with the age and strength of the vines, and all other shoots on the stems not required for fruit-bearing should be removed until the vines are in bloom. In the winter following, the fruit-bearing shoots should be pruned to one bud, and the summer growth stopped. For the production of good table grapes the long rod principle is to be preferred to the usual method of pruning. By the long rod is meant allowing the vines to grow to a much greater height than other methods admit; in this case the trellis should be at least nine feet high and the branches trained regularly to the top; the bunches of fruit should also be thinned to admit of the berries having plenty of room to develop. The following are a few varieties that thrive best in the colony:—

Table Varieties.

Black Barbarosa
Black Hamburg
Black St. Peter's
Buckland's Sweet Water
Calabrian Raisin
Muscat of Alexandria
Muscat Bowood
Muscat Champion

Muscat Canon Hall
Muscat de Salomon
Muscat Gordo Blanco
Muscat Madresfield
Muscat Mrs. Prince's Black
Muscat Tynningham's
Royal Ascot

Snow's Muscat Hamburg
Mill Hill, Hamburg
Morocco Prince
Golden Champion
Golden Hamburg
Duchess of Buccleuch
Frankenthall

Wine Grapes.

Verdeilho
Mataro
Grenache
Black Cluster
Reisling
Black Hermitage
Espérione

Mollar Negro
Roussette
Oporto
Verdot
Red Hermitage
Rulander
Carignan

Chasselas Noir
Chasselas Vibel
Carbenet
Belas Blanco
White Sherry

The following are a few of the best kinds of American grapes, most of which are suited for coastal cultivation:—

Adirondac, black	Goethe, pale pink	Ontario, black
Catawba, red	Iona, red (very superior)	Othello, black
Concord, black	Irving, white	Pocklington, white
Crevelling, black	Israella, black	Rebecca, white
Delaware, red	Ives (wine), black	Regna, purple
Devereaux (wine), black	Massasoit, red	Rogers' No. 12, purple
Diana, red	Maxatawney, white	Rulander (wine), black
Eva, white	Merrimac, black	Salem, purple
Flowers (wine), black	Noah (wine), white	Senasqua, black

Flower Garden.—Flower borders and beds may be lightly dug or forlaid and receive a top dressing, after which see that they are properly stocked with suitable flowering shrubs and perennial herbaceous plants, so that they may present an attractive and gay appearance in the coming spring. Plant roses and prune such as have not been done previously. Annuals and biennials of various kinds may be sown, as French and African Marigolds, Globe and other *Amaranthus*, *Balsams*, *Coreopsis*, *Gillardia*, *Convolvulus*, etc. Bulbs, such as *Amaryllis* and *Gladiolus*, may still be planted. *Fuchsias*, *Verbenas*, etc., may still be increased from cuttings, and last year's plants may be repotted and the growth encouraged; a compost of about equal parts of turf loam, thoroughly decomposed stable manure, and a fine white sand will suit. Cuttings should be under shade and kept moist—not saturated.

Bush-house.—This is one of the most trying months of the whole year for bush-house plants; the cold winds usually prevalent penetrate every crevice, and the more tender vegetation suffers from low temperature. If the previous directions have been carried out, little will need to be done in this department beyond attending to its general cleanliness and appearance. All plants of a succulent nature, as *Begonias*, should have water sparingly applied during the cold months of the year; too much wet will destroy the lot.

Field.—Silk culture, which forms a profitable industry in all countries where it can be successfully produced, should be perseveringly tried here, as there can be no doubt from the experience we have already obtained, that its establishment among us is only a question of time. The suitability of the climate of many parts of the colony cannot be disputed. The different varieties of the White Mulberry (*Morus alba*), the leaves of which are the best food for the silkworm, may be planted, and will succeed on poor soil. The trees should be planted far enough apart to allow light and air to circulate freely—about twenty feet will be sufficient. Mulberries are readily propagated from cuttings of the previous year's growth. Continue to prepare ground for tobacco, maize, and other field crops, and as no plant exhausts the soil more than tobacco, it should not be grown, except on very rich soil, more than two or three years without being enriched with very strong manure. The best varieties of maize for field culture are Yellow Flint, White Flint, Tuscarora, Washington Market, Mammoth Dent, Canada Yellow, etc.; for garden, Darling's Early Sugar, Evergreen Sweet, Black Mexican, Boston Market, Sweet Mammoth, and Dolly Dutton. Continue to plant and transplant onions, and sow a few pumpkins and Swede turnips, mangold, sugar beet, and early potatoes. Barley and oats may be sown in late districts.

AUGUST.

Kitchen Garden.—In making sowings of vegetables, small and frequent sowings answer best, as by this means a constant succession is provided, and in many cases the loss consequent upon large quantities of vegetables coming to maturity at the same time avoided. The following may be sown:—Cucumbers, melons (rock or musk), melons (water), vegetable marrows, pumpkins (these will require protection from frost and cold till well established), carrots and parsnips for main crops; the last should be sown in shallow drills, fifteen inches apart, and be thinned out when large enough to pull. This vegetable succeeds best in a rich deep soil, not too stiff, and open situation; a fine, sandy loam is well adapted for its growth. The

ground should have been trenched (and manured, if necessary) some time previously, as the addition of fresh manure just before sowing causes the roots to fork. Scorzonera, red and silver beet, cress, endive, peas, and broad beans may also be sown, but more sparingly than before; loosen the soil between growing crops and keep it free from weeds by the frequent use of the hoe. On the Darling Downs this month is especially suitable for planting a general crop.

Fruit Garden.—All operations connected with planting fruit trees, as apples, pears, quinces, peach, orange, mulberries, figs, etc., should be finished. If delayed after this month, much attention will be required in watering, especially if large plants should be removed. The most suitable figs for this colony are Black Genoa, Black Italian, Blue Provence, Brown Turkey, Castle Kennedy, Early Violet, Smyrna. White Genoa, White Provence, and White Adriatic. Every means should be resorted to during the winter to destroy the eggs and larva of insects that are injurious to the trees during the period when vegetation is most active, and as these always harbour in the bark and in the ground near the tree, there is no season of the year when their haunts can be so easily invaded and the enemy dislodged as now. For this purpose remove all filth and excrescences from the surface of the bark, such as old scales, moss, lichen, with a blunt scraper, such as an old knife or a piece of hoop iron, then wash the stem and branches well with a mixture of brine and soft soap, or other insecticide, applying it with a brush and rubbing it well into the crevices; the ground should also be turned over and a sprinkling of lime or soot applied. Grafting should be proceeded with according to the order in which the buds break. Manure orange trees if the soil is not naturally rich; if it is, they do not require it. Night soil or good rotten stable manure suits best. In applying fertilizers, fork them lightly in, leaving the surface soil rough. Orange trees may now be pruned of all the superfluous branches and shoots in the centre so as to admit of air and light. Propagate persimmons by grafting; this excellent fruit tree deserves a place in every garden; there are quite a number of varieties in cultivation, all good.

Flower Garden.—Herbaceous plants may now be divided and planted in permanent quarters; continue to plant Amaryllis, Crinum, Gladioli, and other bulbs. Bulbous plants in general require a light, rich, rather sandy soil, well reduced and made fine by turning. For gladioli, a mixture of sandy loam and leaf mould is the most suitable, and a portion of thoroughly decomposed cow-dung may be advantageously incorporated with the soil when it is of a poor nature. Flowering shrubs of all sorts may be transplanted, of which the following are some of the best:—Poinsettia, Weigelia, Tecoma velutina, Escallonia, Poinciana, Erythrina, Lagerstrœmia, Clerodendron, Bouvardia, Datura, Gardenia, Tabernæmontanum, Cestrum, and many species of Hibiscus, etc.; in the tropical north crotons are especially suitable. In sheltered borders the croton will thrive well on the coast from Brisbane northward.

Bush-house.—Plants in pots will require special attention in shifting, watering and keeping free from insect pests of all sorts, as future success will greatly depend on their proper management at this season. The Fuchsia when well cultivated is one of the loveliest plants, and possesses the advantage of retaining its blossom for a great length of time. Old plants of these repotted last month must be attended to, and a vigorous growth encouraged by frequent shifting into larger pots as required; care must be taken that the plant never becomes too dry. Cuttings may be potted when they are rooted. Begonias, Achimenes, Gesneras, Gloxinias, etc., may be repotted or replanted for early flowering. Repot palms and ferns. Pot off stock plants of all kinds that were struck in early autumn, also all seedling plants from store pots. Plants that have been well established in pots can be planted out at any time when required.

Field.—Plant potatoes and select for the seed the best formed tubers of medium size and cut them lengthways, leaving two or three eyes; a better crop will be obtained from these than from the small whole potatoes which are

frequently used for planting; reject tubers with deep eyes. This applies only to South Queensland and more particularly to the Darling Downs. Sow *Sorghum saccharatum* in seed beds for planting out; transplant when six inches high, leaving the plants about one foot apart. This is an excellent fodder, either green or dried, and will produce five or six cuttings in the season. Maize may be planted, and will also make a good summer crop as fodder, for which purpose it may be planted closer than if intended for grain. Sow pearl millet and teosinte. Rice may be sown in low-lying moist lands in the warmer districts. Hemp and linseed for fibre and oil, which will always command a ready market. Tobacco seed should be sown this month. Plant cassava. The plant is propagated by cuttings from the stem, a foot in length, which may be planted at distances six feet apart in rows, and generally comes to sufficient maturity in ten or eleven months to allow of the tuberous roots being used, which are the only parts converted into food; the juice is deadly poison, but rendered innocuous by heat, and the bread which is obtained is estimated to yield more nourishment to human beings in the proportion of one acre of cassava to five acres of wheat. The climate is admirably suited to the cultivation of this plant; it flourishes best in a dry alluvial soil; excessive moisture will rot the roots; a little moisture, however, in the earlier stages is necessary. Pumpkins for feeding cattle may be sown. Complete the manufacture of arrowroot, and, if the season is favourable, commence planting.

SEPTEMBER.

Kitchen Garden.—Keep this department thoroughly clean and in good order by taking every opportunity of eradicating weeds, either by hand-pulling or frequent hoeings. Weeds help materially to exhaust the soil, and they are much more easily kept under by never being allowed to ripen and shed their seeds. The sowing of onions, leeks, parsnips, carrots, beets, and other roots for main crops should be completed this month. Sow pumpkins, vegetable marrow, cucumbers and melons; also tomatoes, capsicums, etc. White maize will form a vegetable which, when eaten green, will be found equal to peas. Rosellas can be sown this month. A succession of radishes may be obtained by sowing a few at intervals of a fortnight. French beans may be set in rows three feet apart. Transplant cabbage upon favourable occasions, but only in the southern districts. Asparagus and rhubarb should now be ready for use; in cutting the former allow the heads to grow six inches above the ground before they are cut, and then cut level with the surface. In gathering the rhubarb for use, the leaf stalks should be bent down and pulled, not cut off. The flower stems, if seed is not required, should be cut off soon after they make their appearance.

Fruit Garden.—Be specially careful to destroy caterpillars among vines at this season. Stakes and trellising, if not already attended to, should be done at once. As the vines break, rub off the superfluous shoots and tie in young fruiting shoots. See that recently transplanted fruit trees do not suffer from want of water, and keep the surface of the soil well mulched. Pears and apples may still be grafted, but all grafting should be completed this month. Give support to early peach trees. In warm situations, loquats and mulberries ripen this month. Both these very desirable fruits may be cultivated to perfection in this climate. Strawberry beds should be well watered in dry weather twice a week, and mulched with short grass, in order to prevent the fruit from lying on the ground, and also for the purpose of retaining moisture. Young mango plants will now be making vigorous growth; keep an eye upon these and regulate the shape of the trees by removal of the young shoots. The Mango thrives so well in Queensland that it cannot be too largely planted, care being taken to give them an easterly aspect, and shelter from westerly winds. This is a good month for planting all sorts of tropical and sub-tropical fruits.

Flower Garden.—With the advancing season the flower garden will assume a gay and more attractive aspect. Azaleas and Verbenas will now produce

their beautiful flowers in profusion. Flowering shrubs may still be transplanted, but great care should be taken to remove as much earth as possible with the plant. Layers of Camellias, Azaleas, Magnolias, etc., may be made. Sow Balsams, Cockscombs, Phloxes, Zinnias, Solanums. Plant Dahlias, but it will be advisable to reserve some to plant in November for late autumn flowering. To cultivate the Dahlia to perfection, the soil must be enriched by a plentiful supply of the strongest manure. The various kinds of Gladiolus, Amaryllis, etc., now begin to bloom, and should be sheltered from boisterous weather.

Bush-house.—Finish repotting palms, ferns, and all kinds of bush-house plants. Pot caladium bulbs. Plants will now require copious waterings, but by no means use manure water until there is active root action. Make sure that the shading of the bush-house is in good order, neither too dense or too thin. Allow no living creepers to overgrow the house nor act as a shade.

Field.—Plant Purple Arrowroot (*Canna edulis*) in rows four feet apart and two feet between the plants. Cuttings of sweet potatoes may be planted; take them six inches or more in length, and plant on ridges three feet apart, and two feet between the plants. Yams may also be planted. The West Indian variety is the strongest growing kind, and should be planted in rows three feet apart, leaving the same distance between the plants; the other kinds may be planted closer. The West Indian variety is by far the most favourable, both on account of its flavour and size; its roots are frequently three feet in length, and weigh about thirty pounds. It is extensively cultivated in the tropical parts of the continents of Asia, Africa and America, and is an excellent substitute for the English potato. When dug out of the earth, the roots are put for some time to dry in an airy place, and may afterwards be kept in casks of sand for a long time. The yams are raised from the cuttings of the roots. They require a light and deeply-worked alluvial soil, with a moderate degree of moisture, and generally come to maturity in six or seven months. The Okra (*Hibiscus esculentus*), the young pods of which are much used in tropical countries as a vegetable for soups, etc., may be grown by sowing in drills, three feet apart, and afterwards thinning the plant to two feet apart in the drill. The Rosella (*Hibiscus sabdariffa*), from the calyx of which excellent jam is made, may be grown by sowing at a distance of from five to eight feet apart each way. An excellent fibre is obtained from it, combining softness, strength and durability. Plant maize for summer crop and green fodder; it is a fine fodder plant for cattle, horses and pigs. Plant white arrowroot and sow tobacco. Sow sunflower—the seeds of which are used for making oil and for fattening fowls. Continue planting and hill potatoes, and finish cotton pruning. If the season be favourable, sugar cane may be planted towards the end of the month, but next month is the most general time in the southern portion of Queensland. Plant Coffee, Cocoa, Allspice, Cinnamon, etc., in the northern districts.

OCTOBER.

Kitchen Garden.—As vegetation is now making rapid progress it will be necessary to keep the hoe in constant use for earthing up or thinning the crops and loosening the soil between them. Carrots, parsnips, beet and all root crops should be thinned as soon as they are sufficiently forward. Melons, cucumbers, vegetable marrows, pumpkins, squashes and gourds may be sown and planted out; also capsicums and tomatoes. Of this last-named vegetable the large American varieties, such as Allington's, Hathaway's Excelsior and Trophy, and many newer varieties, are the best—some of which exceed a pound in weight, and are much more fleshy than the old kinds. Continue to sow lettuce, radishes, endive, etc., for salads. These should be watered plentifully in dry weather, as they will otherwise lose their crispness and flavour. The Egg plant may also be sown. It is cultivated for its fruit, which, when properly prepared, is excellent.

Fruit Garden.—Vines should be frequently looked over for the purpose of regulating their growth, by thinning and taking out the superfluous shoots, and stopping and shortening others that they may require it; the permanent shoots should be tied up as soon as they are long enough. Upon the slightest appearance or suspicion of disease (*Oidium Tuckerii*) apply sulphur, either by itself or mixed with finely sifted lime. In most instances, if preventive measures are taken in time, the disease will be effectually checked. Newly-planted trees will now begin to require mulching. The operation of disbudding, which merely consists in rubbing off the superfluous and badly-placed young shoots and buds, may be advantageously performed on peach and other trees when practicable. The result will be a marked improvement in the fruit and prevents the necessity for much wasteful pruning in the winter. In peach trees very gross shoots may be pruned away. If scale appears on the orange trees, use some approved insecticide. Plant bananas and pineapples; amongst the former the following varieties will be found well adapted for profitable cultivation:—Cavendish, Sugar, Dacca, and Lady's Finger. This is the best season for planting Custard Apple, Jack Fruit, Rose Apple, Mango, Alligator Pear, Chinese Date Plum, Sapodilla Plum, Bread Fruit, Durion, Papaw, Litchi, Longan, and other fine tropical and sub-tropical fruits. These delicious fruits may be as easily cultivated in many parts of the colony as the peach; the chief point is to plant them in good soil that has been well trenched and manured, and, if necessary, drained. The Strawberry, Mulberry, Loquat, Cape Gooseberry, etc., may be gathered as they ripen.

Flower Garden.—Roses will now be in perfection, and may be regarded as one of the chief attractions of the garden; they should be frequently looked over for the purpose of destroying the leaf-rolling caterpillar, aphids and other pests, and removing decaying flowers which, if allowed to remain, have an untidy appearance. As a rule, hybrid perpetuals flower well only in Southern Queensland; the Noisettes, Teas, and Bourbons succeed better in higher temperatures. Plant out and stake Dahlias, tie up climbers and other plants where requisite, and water in dry weather anything newly planted. Continue to plant Verbenas, Pelargoniums, etc. Sow showy annuals, as in last month. Take up bulbs as soon as the leaves are withered, and store them in a dry place to prevent their rotting or making unseasonable growth.

Bush-house.—Fuchsias and all pot plants must be well attended to and kept clear from insect pests, many of which will make their appearance this month. A frequent use of the syringe will be of great service for this purpose, and will also assist the growth of the plants. Re-pot Caladiums in rich, light compost, also Achimenes, Gloxinias, Begonias, and Eucharis amazonica. Fuchsias will be making rapid growth. To produce sturdy bushy plants, they should be frequently topped, and, if required for show purposes, they should receive the last topping about six weeks before they are wanted to flower. As soon as they show flower-buds freely, give them a little weak manure water; use the syringe to keep down thrip. A little sulphate of ammonia dissolved in the water—about an ounce to six gallons—would be very beneficial for the purpose.

Field.—This, with the latter part of the preceding month, is the best season for planting sugar cane; any portion of the cane having perfect eyes will do. The holes should be eighteen inches square and eight or ten inches deep, and in the rows five feet apart, and two or three feet from each other, according to the soil and situation. One or more cuttings may be laid longitudinally in each hole, special care being taken to keep the eyes uppermost. Cover the canes at first not more than an inch, and when the shoots are a few inches in length draw a little earth about them, and continue to do so at intervals, as required, until the holes are filled up. The soil should be very loose, in order to allow the roots to spread with facility, which in their turn collect abundance of moisture. This is the best season for sowing cotton, coffee, China grass, and other fibrous plants, more particularly jute. Of cotton, three or four seeds should be dropped into holes

from three to five feet apart, according to the nature of the soil; afterwards thin to a stand of one plant. Where the seed is not an object, it is preferable to open a furrow with the plough; strew the seed pretty thickly, and harrow. When the young plants appear, cut them out with a hoe or pull to stand three or four each. When the plants have gained a little more strength, select the strongest plant in each stand, and draw the rest by the hand, leaving only a single plant. The seed is better for being damped before planting. The New Orleans variety has proved to be the best adapted for cultivation on the more exposed or distant lands from the coast. The Sea Island is a more valuable kind, but the crop cannot be depended upon. It produces well on the more sheltered lands of the seaboard, the principal drawback to its cultivation being its extreme liability to damage from rain, which upon the New Orleans variety does not exert such a prejudicial effect. In some localities, after very wet seasons, during which the cotton plant has run to wood at the expense of fibre, it will be found more profitable to sow fresh seeds than to prune the old plants. Sow rice for a general crop. Coffee is usually raised from seed, and afterwards planted out at regular distances varying according to climate and the nature of the soil, but generally eight feet apart; in soils where they attain the height of ten or twelve feet, the intervals between should be from nine to twelve feet. The berries grown upon low, rich, moist soils are the largest, but those grown in drier and more elevated localities are the best flavoured. Generally, however, the trees require considerable moisture, and plenty of warmth, tempered by shade when the sun is most powerful. They frequently commence bearing when about two years old, and the berries are fit to gather when they assume a dark red hue. Arrowroot, sweet potatoes and yams may also be planted. The Ground Nut (*Arachis hypogæa*) may be planted in rows about two feet apart, and a foot between the plants in rows; it thrives best on light sandy soils and is very prolific, and if cultivated upon a large scale would no doubt prove remunerative. Continue to transplant tobacco, leaving the plants about four feet each way. Hay will soon be ready to cut in the early districts. Any potatoes not earthed up attend to at once, in order to protect them from heat. If the season is favourable, maize may be sown for fodder, and some for grain. Turmeric and ginger should now be planted in well prepared soil, and after planting should be mulched with cow-dung; a sandy soil suits them best.

NOVEMBER.

Kitchen Garden.—A few vegetables of various kinds may still be sown as required; but should the weather prove dry, the seed beds must be well and regularly watered. The branches of tomatoes should be supported to prevent the fruit from lying on the ground, and the shoots thinned and stopped occasionally. Sow French beans, lettuce, radish, cucumbers, melons, etc., as in last month; a rich soil and plenty of moisture is essential to secure good crops of these. Sweet corn should be sown all through the summer at intervals of a fortnight or three weeks. The cutting of asparagus should now cease, and the beds may receive a top-dressing of salt with beneficial effect. Keep the surface soil between the crops well stirred, and let more than common care be taken to destroy weeds of all kinds. There is no work that requires more attention than this, for weeds are at no time more detrimental than at present, especially among all close-growing crops of young plants. It is therefore of the utmost importance to destroy them before they grow so large as to overrun advancing young crops. By never allowing weeds to gain any strength they can be as nearly as possible mastered with a minimum of labour and outlay.

Fruit Garden.—When there is a superabundance of fruit on fruit trees, it should be thinned, care being taken to leave the largest and best fruit. As a general rule, the branches ought not to be allowed to become so overlaid with fruit as to require propping. Complete pineapple and banana planting in order that they may have the full benefit of the summer. Loosen the soil among vines and keep them free from weeds and caterpillars; renew the stakes where

required, and look over them frequently to thin and stop the shoots so as to throw all the strength of the plant into the fruit as it swells. It is a very common mistake to leave too much young wood on vines, as it only serves to crowd the fruit and also prevents it from ripening thoroughly. Another mistake is to remove leaves away from shading the fruit, causing a tendency to black spot and to prevent the full growth and maturing of the fruit. Remove suckers, and all barren shoots that will not be wanted next season. If the weather is warm and moist, *Oidium* may make its appearance; if so, sulphuring will be required immediately.

Flower Garden.—There will now be an abundance of work for the scythe, hoe, and digging fork. Flower beds and borders should be kept perfectly clean and neat. Tie up climbers and all tall-growing plants that need support, and cut down all herbaceous plants when they have done flowering; and continue to take up and store bulbs as in last month. Plant out dahlias for late flowering, and transplant annuals, Coleus, Caladiums, and other tender foliage plants, in showery weather, and shade them from the hot sun for a few days. Edgings of *Alternanthera* may be planted at any time during summer when moisture is sufficient. Water newly-planted shrubs and trees, and see to the mulching and attend to the watering in dry weather, especially of plants newly removed.

Bush-house.—If previously well attended to, Caladiums, Alocasias, and Marantas will now be making a good show, and if in a healthy state, will be benefitted by the application of weak manure water twice a week. Syringe ferns freely to keep down thrip and red spider, and should mildew make its appearance on any plant give an application of flowers of sulphur. A flour dredge is useful for applying this. Gloxinias will now be opening their first flowers, and when syringing be careful not to wet the blossoms.

Field.—Plantations of Cotton, Indigo, Arrowroot, Ginger, Turmeric, etc., must be made, and all weeds destroyed when young. Use the horse-hoe for this purpose, when practicable, or as soon as the crops will admit of the operation. Sugar cane planted last month should have a little more earth drawn about it; this must be continued for the next three or four months. When tobacco has reached its full height, and is coming into flower, it must be topped, and frequently looked over and pinched, the weak leaves thinned out, leaving only the larger and more fleshy; all the strength of the plant will thus be given to those which are retained. From eight to ten leaves is enough for each plant. Wheat, Barley, and Oats will now be ready for harvesting, and will demand the farmer's careful attention to get the operation properly performed. Haymaking should be finished this month, and if it is desired to save the seeds of any of the grasses, it should be remembered that seeds ripen after being cut, and if care be not taken the seed will fall out. As the Annato plant flourishes in this climate, it would probably pay to cultivate it for the sake of the dye called annato, which is obtained from the red pulp covering the seeds. It is better not to plant maize this month, but defer it to the end of December, as the November crop but very rarely succeeds.

DECEMBER.

Kitchen Garden.—Hoeing and surface stirring between crops will still be of the greatest importance; these operations are not only destructive to weeds, but they check rapid evaporation and pulverise the ground. In dry weather, celery, cucumbers, melons and pumpkins should be watered. In watering any kind of plant, it is much better to give a copious supply once daily; and, where practicable, it is both economical and beneficial to get the water well down in the soil rather than upon the surface. Surface watering is very deceptive; plants are often starved for want of water when watered inadequately from the surface. A dibber or pointed stick will serve to make a hole; the water should be gradually poured in and then covered with dry soil. If the supply of vegetables for the

summer is running short, cabbage (St. John's Day), and French beans may be sown in the cooler districts of the colony; also sow pumpkins and custard marrows for a late crop.

Fruit Garden.—Proceed with thinning the shoots of vines and also the fruit where it is too abundant. If mildew (*Oidium Tuckerii*) appears, dust the vines with sulphur and fresh slaked lime. Most kinds of fruit trees, as peaches, etc., may now be budded, and all fruit should be gathered as it ripens.

Flower Garden.—Everything in this department should now be kept in the neatest possible order, by clearing away weeds and all rubbish. Edgings should be trimmed and climbers tied; all tall-growing plants neatly staked and tied up where necessary. Roses may be budded when the bark upon the stock separates freely from the wood. Carnations, pinks, etc., may be propagated from pipings or layers. Pot plants will require constant attention in watering, shading, keeping free from insects, etc.; most of these would be better plunged in ashes or gravel at this season. Flower seeds may be gathered, taking care to select none but the best varieties. Look over bulbs that have been stored, and see that they are perfectly dry and not attacked by mice or insects.

Bush-house.—Plants in the bush-house will now be at their best, and if properly looked after will be in luxuriant growth. Propagate gloxinias and foliage begonias, by inserting the leaves as cuttings in light sandy soil in a shady spot. Propagate crotons and dracenas by cuttings.

Field.—The operations for the month will consist chiefly in hoeing and keeping free from weeds sugar, cotton, and all other crops. Look frequently over tobacco; top any that has not been previously done, and pinch off all side shoots as soon as they make their appearance; the first crop will be ready to cut; this will be shown by the leaf turning partially yellow at the tip. Cotton should also be topped, and have the superfluous shoots thinned out. Draw a little earth occasionally to newly planted sugar cane. Potatoes planted in Spring should now be ripe, and must be taken up as soon as they are ready, as they will rot if left long in the ground. Seed from this crop must be saved for the March planting, as at that time of the year imported potatoes fit for seed purposes cannot be obtained. Yams should be staked for the purpose of supporting their vines, and to prevent their trailing upon the ground. Maize should be planted for winter crop; pumpkins and cabbage for winter feed for cattle. Too much attention cannot be given at this season to keeping the weeds under, as, if they now get the upper hand, it will be almost impossible to overcome them during the season, and where the land is suitable to their operations, no better investment presents itself to the cultivator than labour-saving implements for this description of work.

THINGS TO BE REMEMBERED.

Clean all garden tools when put by. Never leave tools outside when not in use. Keep the barrow, lawn mower, and roller well lubricated. The pruning knife should be kept sharp. Keep a bundle of labels handy for naming plants, a hank of soft twine for tying up, a supply of stakes, and a book for making notes in.

GARDEN REQUISITES.

A well equipped garden should be supplied with a steel spade, digging fork, shovel, mattock, pick, steel bar, edging iron, hoes and rakes of various sizes, axe, hammer, handsaw, trowel, garden line, barrow, watering pots, buckets, riddles of several sizes, shears, knives, and above all a place to keep them in.

POSTAL INFORMATION.

DELIVERY OF LETTERS.

City Delivery, including Fortitude Valley, by Letter Carriers.—Daily, Sunday and Saturday excepted, at 8 a.m. and at 2 p.m., and in the business parts of the city and Stanley and Melbourne streets, South Brisbane, at 4.30 p.m.; on Saturday at 8 a.m. and at 12 noon. At South Brisbane 9 a.m. and 2 p.m., Saturday, 9 a.m. and noon.

Letters may be posted up to a quarter of an hour of the time of each delivery, except the latest (4.30 p.m.) when they may be posted up to half an hour before the time of delivery.

Note.—The town rate of postage, which includes all places within a radius of eight miles from the General Post Office, extends to the Post and Receiving Offices at Acacia Ridge, Ascot, Annerley, Albion, Ashgrove, Belmont, Boggo, Breakfast Creek, Brookfield, Bulimba, Cooper's Plains, Corinda (railway station), Coorparoo, Clayfield, Downfall Creek, Dunellan, Eagle Junction, Eagle Farm, Enoggera, Fairfield, Figtree Pocket, Filleigh, Fortitude Valley, Geebung, Glen Albion, Graceville, Hamilton, Hawthorne, Hemmant, Hendra, Indooroopilly, Jubilee, Kedron, Kelvin Grove, Kenmore, Lutwyche, Manly, Merthyr Road, Milton, Mooraree, Moorooka, Morning-side, Mount Coot-tha, Mount Gravatt, Mowbraytown, New Farm, Newstead, Norman Park, Northgate, Nundah, Nudgee, O'Connell Town, Oxley, Paddington, Petrie Terrace, Pinkenba, Racecourse, Red Hill, Rocky Waterholes, Sherwood, South Brisbane, South Coast Junction, Stafford, Stanley Bridge, Sunnybank, Tingalpa, Taringa, Toombul, Toowong, Torwood, Tennyson, Virginia, Witton, Woolloowin, Yeronga, Zillmere; also to St. Helena and Dunwich.

At Ipswich the town rate extends to all places within a radius of five miles from the Post Office.

At Toowoomba the town rate includes the Shire of Middle Ridge, Glenvale, and Wilsonton R.O.

At Gympie the town rate of postage includes One-mile Creek and Monkland.

At Bundaberg the town rate of postage includes North, South, East, and West Bundaberg.

At Maryborough the town rate includes a radius of three miles of the Maryborough Post Office, and, in addition, the Post Offices at Granville and Tinana.

At Rockhampton the town rate of postage includes North Rockhampton and Lake's Creek.

At Townsville the town rate of postage extends to Mundingburrah and Ross River Meat Works.

At Charters Towers the town rate of postage extends to Millchester.

POST OFFICE HOURS, GENERAL POST OFFICE, BRISBANE.

The Delivery Office is open from 9 a.m. to 6 p.m. daily, Sundays excepted. Lock-boxes from 8 a.m. to 8 p.m. Private boxes from 7 a.m. to 8 p.m.; Sundays, 7 a.m. to 10 a.m. On general holidays from 9 to 10 a.m.

The Dead Letter Office is open from 10 a.m. to 4 p.m., except on Saturday, when it is closed at noon. On general holidays from 9 to 10 a.m.

The Office for Registration of Letters is open from 9 a.m. to 5 p.m. On general holidays from 9 to 10 a.m.

The Office for the Sale of Stamps is open from 9 a.m. to 6 p.m. On general holidays from 9 to 10 a.m.

The Money Order Office is open from 10 a.m. to 4 p.m., except on Saturday, when it is closed at 12 noon.

The Parcel Delivery Office is open from 9 a.m. to 5 p.m., except on Saturday, when it is closed at noon.

The Country Offices are open from 9 a.m. to 6 p.m., except when mails arrive at a later hour, in which case they are open for an hour after such arrival, but not later than 8 p.m.

—:O:—

REGULATIONS.

COLLECTION OF LETTERS.

Arrangements may be made for the collection, when practicable, of ordinary letters only from private boxes of approved pattern at business premises, &c.

The charge for this service is as follows:—For three collections daily, except Sundays and holidays, from a box on the ground floor, £6 per annum. For each additional daily collection, £1 per annum. For boxes above or below the ground floor, an additional £1 per annum in respect of every floor the collector has to ascend or descend to make the collections. A notice will be affixed to these boxes:—"Any article put into this box will not, for the purpose of any enactment, law, or contract, whereby the due posting is evidence of the receipt thereof by the addressee, be deemed to have been duly posted." Application to be made to the General Post Office.

POST OFFICE EXPRESS DELIVERY SERVICE BY TELEGRAPH MESSENGERS.

There are four systems by which letters and packages not exceeding 8 ounces in weight can be specially delivered, namely:—

By special messenger all the way.—This is the most expeditious service, and to secure it letters, &c., must be handed in at an "Express Delivery" Post Office.

By special messenger after transmission by post.—For this service a letter may be posted at any post or receiving office, or in any letter-box or tram posting-bag, and be "expressed" on reaching the delivering office, providing such office is an express delivery office. (See list at foot hereof.)*

By special delivery in advance of the ordinary delivery by letter carrier.—By this means any person may make an arrangement with the postmaster of any express delivery office to secure the immediate delivery of his own correspondence on its arrival.

Special delivery by travelling mail officers at all stations where the mail trains are timed to stop without passing through the local post office or waiting local delivery.

LOCAL SERVICE BY SPECIAL MESSENGER ALL THE WAY.

In Brisbane letters and packets not exceeding 8 ounces in weight will be accepted at the Chief Post Office and the post offices at South Brisbane, Woolloomgatta, Fortitude Valley, Albion, and Toowong. They will also be accepted at most post offices from which there is a delivery of telegrams. Such offices are designated "Express Delivery Offices."

In Brisbane, for a letter or packet not exceeding 8 ounces in weight for the first mile or part of a mile, in addition to the proper postage, 4d.; provided that the minimum rate, including postage, shall not be less than 6d. for every additional half-mile, or part of half-a-mile up to two miles, 2d. Express messages will be delivered by foot messengers, by omnibus, or by bicycle, at the discretion of the Department. If the sender desires a cab or other special conveyance to be used, the actual fare must be paid in addition to the express fee and postage. At the suburban and country post offices the express delivery is limited to one mile from the post office. All charges, inclu-

ding both postage and fee, must be fully prepaid by valid postage stamps affixed to the letter or packet. Every letter and packet intended for express delivery must be handed in, and not posted in a letter-box, during the hours the office is open for ordinary business. After the office has closed they may be posted in the letter-boxes in the ordinary manner, but will not be delivered until the following morning. The words "Express Delivery" must be boldly and legibly written by the sender above the address in the left-hand corner of the cover. When posted in a letter-box there must be in addition a broad perpendicular line drawn from top to bottom both on the front and the back of the cover. There is no express delivery on Sundays and holidays. All articles handed in or posted for express delivery must be immediately marked with the date and time of posting. Where a date stamp showing hours and quarter-hours in plain figures is in use, it will be sufficient to date-stamp such articles with the stamp showing the hour and quarter-hour of posting. At offices where a stamp of this description is not used the article must, in addition to dating with the stamp in ordinary use, be marked with the exact time of posting, thus, "9/5 A" indicating five minutes after nine a.m. In the same manner fifty-five minutes after twelve noon would be indicated by "12/55 P."

When a reply is required to an express delivery letter or packet, the words "Wait Reply" must be legibly written by the sender immediately under the words "Express Delivery," and the postage and fee required for the reply must be affixed by postage stamps immediately under the above endorsement on the article to which a reply is desired. The messenger will be allowed to wait ten minutes for the reply.

When the letter or packet sent in reply, or as a further service, is to be taken to an address on the messenger's homeward route the express delivery fee will be 3d. in addition to the ordinary postage, otherwise the full fee as for the original service must be prepaid.

Articles in reply, or further service, can only be accepted after the messenger has delivered all the express delivery articles originally entrusted to him.

A telegraph messenger on delivering a telegram may, if desired, take back to the post office at which he is employed a letter or packet for express delivery. The postage and fee must be prepaid by the sender by means of stamps affixed to the article. The express fee will be charged as from the residence of the sender and not from the office where the messenger is employed.

EXPRESS DELIVERY AFTER TRANSMISSION BY POST.

Letters and packets intended for express delivery from the post office of destination only can be posted like ordinary articles, but they must be clearly marked "Express Delivery," and have a thick perpendicular line drawn on each side of the envelope. The fee of 4d. in addition to the ordinary postage must be prepaid by affixed postage stamps, and the minimum rate, including postage, is 6d. Letters and packets marked as directed and fully prepaid will be delivered by special messenger immediately after receipt of the mail in which they are enclosed. The conditions already specified for express letters and packets for the local service will also apply to those intended for express delivery after transmission by post.

SPECIAL DELIVERY OF LETTERS AND PACKETS IN ADVANCE OF THE ORDINARY DELIVERIES, AT THE REQUEST OF THE ADDRESSEE.

Persons or firms who desire at any time to receive their letters or packets, not exceeding the weight of 8 ounces each, or in the aggregate a total weight not exceeding 4lb., in advance of the ordinary delivery, may have them delivered by special messenger on payment of the following fees, viz. :—

The full express fee of 4d. a mile, or fraction of a mile, for one article, and $\frac{1}{2}$ d. each for each additional article beyond the first. Written applications for such special delivery must be made by the person to whom, or firm to which, the letters or packets are addressed. The applications must be addressed to the officer in charge of an express delivery office from which the letters are ordinarily delivered. If possible they should be delivered by hand, but if posted must be prepaid as

ordinary letters. Care should be taken that the applications reach the office an hour at least before the time at which the delivery by letter carrier commences. The express fee on at least one article must be prepaid by stamps affixed to the application. All additional fees must be paid to the special messenger on delivery. If no letters or packets for the address given are found, a special messenger will be sent to inform the applicant to that effect, and the express fee will be retained to pay for this service. In cases where a regular delivery by special messenger is required, either on one or more days of the week, or of letters, &c., arriving by any particular mail, it will be sufficient if application be made accordingly and left with the officer in charge. In such cases the whole of the charges will be collected on the delivery of the letters.

EXPRESS LETTERS OR PACKETS FOR DELIVERY FROM TRAVELLING POST OFFICES,
WITHOUT PASSING THROUGH THE LOCAL POST OFFICE.

Letters or packets with the ordinary postage fully prepaid, together with the usual late fee, and an express delivery fee of 4d. affixed by postage stamps, will be accepted by any travelling mail officer for delivery at any railway platform where the mail train is timed to stop. Such articles must be marked by the sender "Express Delivery" in the manner previously directed, and this endorsement will be covered by the date stamp of the T.P.O. to indicate that no further or local express delivery service is required. The sender must arrange for a special messenger to meet the train on arrival at the platform and apply at the travelling post office for the article. If this is not done the letter or packet will be handed loose to the person carrying the mails to the local post office, and delivery must be obtained in the usual manner.

EXPRESS DELIVERY OFFICES.

Albion, Bowen, Brisbane, Bundaberg, Cairns, Charleville, Charters Towers, Cooktown, Croydon, Dalby, Fortitude Valley, Gladstone, Gympie, Ipswich, Mackay, Maryborough, Mount Morgan, Normanton, One-Mile, Petrie Terrace, Queenton, Rockhampton, Roma, Sandgate, South Brisbane, Southport, Toowong, Toowoomba, Townsville, Warwick, Woolloongabba, and such other offices as the Postmaster-General may from time to time appoint.

LETTERS.

The Rates of Postage on Letters posted in Queensland are—

For delivery within the Colony—

From the post office at which they are posted and within the limits of town delivery	1d. for each $\frac{1}{2}$ oz. or fraction thereof.
--	---

From any other post office than that at which posted and beyond the limits of town delivery	2d. for each $\frac{1}{2}$ oz. or fraction thereof.
---	---

For any place within the Australasian Colonies, including the New Hebrides, Fiji, and British New Guinea	2d. for each $\frac{1}{2}$ oz. or fraction thereof.
--	---

For any place beyond the Australasian Colonies	2 $\frac{1}{2}$ d. for each $\frac{1}{2}$ oz. or fraction thereof.
--	--

One penny postage only shall be charged on letters not exceeding $\frac{1}{2}$ an ounce in weight, sent by or addressed to any seaman on actual service in Her Majesty's Navy or in the Marine Defence Force of any of the Australasian Colonies, or to or by a non-commissioned officer or man on actual service in Her Majesty's regular forces or in the Permanent Land Force of any of the Australasian Colonies, provided that the letter bears on its addressed side the name of the writer and his class or description in his vessel, regiment, corps, or detachment, and the signature of the commanding officer. Also that a letter addressed to any such person shall bear on its addressed side the name of the vessel, regiment, corps, or detachment to which the addressee belongs. To places other than British possessions the ordinary rate of postage is charged.

Letters not fully prepaid or wholly unpaid are forwarded, but are charged double the deficiency on delivery.

No letter should exceed 2 feet in length or 1 foot in width or depth.

Late letters may be posted 15 minutes after the time appointed for closing the mail at the post office; also on board steamers, in or for the railway travelling post offices, and in the boxes provided at the principal railway stations for the reception of letters to be carried loose by the guards of all passenger and mixed trains; and at stations where boxes are not provided, such letters may be handed to the guards or stationmasters.

All late letters mentioned in the preceding Regulation that are intended for delivery within the Colony must have a late fee of 1d. affixed in addition to the ordinary postage, and those for places beyond the Colony must bear one single rate in addition to the ordinary postage.

Late letters for places in Queensland posted at any post office without late fees affixed will be detained until the following mail, but those sent by railway or steamer will be delivered on payment of the late fee. Late letters for places beyond the colony to which a late fee is not affixed will be detained until the following mail, except those posted on board steamers, the late fees on which will be collected on delivery.

Letters containing coin, jewellery, gems, watches, or any other valuable enclosure of the like kind and poisons, must be registered, and if there is reasonable cause to believe that any unregistered letter contains such an enclosure it must be endorsed "Supposed to contain a valuable enclosure" and be officially registered, and be charged with a compulsory registration-fee of 3d., to be collected on delivery.

Letters concerning goods sent, and to be delivered therewith, are not required by law to be posted nor to bear postage stamps; and when such letters are received loose for delivery through any post office they will be subject to the town or inland rate of postage only, provided the words "Consignee's letter" is inscribed on the addressed side of such letter, otherwise they will be treated as ordinary letters irregularly posted or received.

Letters from beyond the Colony, except loose ship letters from the Australasian Colonies, which have not been regularly posted at the office of despatch, are charged on delivery with full postage as from the country of origin, unless they are letters which it is not compulsory to send by post, in which case the town or inland rate only will be collected.

Letters originally posted in Queensland shall be retained at the office of delivery for one month from the date of receipt, those posted in any of the other Australasian Colonies shall be kept at the office of delivery three months, and those posted in the United Kingdom or any place beyond the Australasian Colonies shall be kept six months. At the expiration of these periods all letters remaining unclaimed shall be sent to the Dead Letter Office, whence those posted in the Colony shall be returned to the senders charged with ordinary postage, and any postage or fees remaining due thereon. Letters posted beyond the Colony and finally unclaimed shall be returned at once to the country of origin.

And so on.	And so on.	And so on.	And so on.	

BOOKS.

The postage for books is—To any place within Queensland, the Australasian Colonies (including the New Hebrides, Fiji, and British New Guinea), for each 4 ounces or fraction thereof, 1d. ; to all places except the above, for each 2 ounces or fraction thereof, 1d. The following articles may be sent as books :—Printed books, pamphlets, magazines, reviews, printed music (bound or loose), photographs, prints, engravings, catalogues, reports of societies or companies, &c., and generally anything bound and published in book form. Book packets must not exceed 18 inches in length, 12 inches in width or depth, and 4 lbs. in weight ; except that, to places within the colony to which there is no parcel post, a single book may be sent not exceeding 7 lbs. in weight.

PRINTED PAPERS.

The postage on printed papers, except books and newspapers, is—To any place within or beyond Queensland, for each 2 ounces or fraction thereof, 1d. Magazines and other periodicals may be transmitted intercolonially at the rate of postage, namely, ¾d. for each 2 ounces or fraction thereof.

Printed papers include visiting cards, address cards, proofs of printing (with or without the manuscript relating thereto), engravings, photographs, pictures, drawings, papers impressed for the use of the blind, or cardboard drawing models stamped in relief (except for Russia and Sweden), plans, maps, catalogues, prospectuses, announcements, and notices of various kinds, whether printed, engraved, lithographed, or autographed, and in general all impressions or copies obtained upon paper, parchment, or cardboard by means of printing, lithography, autography, or any other mechanical process easy to recognise, except the copying-press and the type-writer, and imitations thereof, and anything usually attached or appurtenant to any of the beforementioned articles in the way of binding, mounting, or otherwise, and anything convenient for the safe transmission by post which shall be contained in the same packet ; also printed, engraved, or lithographed circulars, notwithstanding that such circulars may be letters, or communications in the nature of a letter, provided they bear internal evidence that they are intended for transmission in identical terms to several persons, the name of the addressee only being added in writing. In the case of circulars not wholly printed in ordinary type, engraved, or lithographed, but produced by some other mechanical process, such as chromography, copying-press, type-writer, or imitations thereof, at least twenty copies must be submitted to the Post Office, and be posted at the same time, in order to constitute it a circular, otherwise every copy will be charged the letter rate. Stamps for prepayment, whether obliterated or not, and all printed articles constituting the sign of a monetary value, are, however, excluded from transmission as printed papers to countries of the Postal Union.

Printed papers, of which the text has been modified after printing, either by hand or by means of a mechanical process, or bears any mark whatever of such a kind as to constitute a conventional language, cannot be sent at the reduced or packet rate of postage. The following exceptions to this rule are, however, allowed:—(a) To indicate on the outside of the article the name, commercial standing, and address of the sender. (b) To add in manuscript on printed visiting cards the address of the sender, his title, as well as conventional initials (p.f. &c.). (c) To indicate or to alter in a printed paper, in manuscript or by a mechanical process, the date of despatch, the signature and the commercial standing or profession, as well as the address, of the sender. (d) To enclose the "copy" with corrected proofs and to make in those proofs alterations and additions which relate to accuracy, form, and printing. In case of want of space, these additions may be made on separate sheets. (e) To correct also errors in printing in printed documents other than proofs. (f) To erase certain parts of a printed text in order to render them illegible. (g) To make prominent by means of marks passages of the text to which it is desired to draw attention. (h) To insert or correct in manuscript, or by a mechanical process, figures in prices current, tenders for advertisements, stock and share lists, trade circulars and prospectuses, as well as the name of a traveller and the date and place of his intended visit. (i) To indicate in manuscript, in advices of the departure of ships, the dates of those departures. (k) To indicate in cards of invitation and notices of meetings the names of the person invited, the date, the object, and the place of the gathering. (l) To add a dedication on books, sheets of music, newspapers, photographs, and engravings, Christmas and New Year cards, as well as to enclose the invoice relating to any such work. (m) In requisitions, sent to libraries (printed and open, and intended as orders for books, newspapers, engravings, pieces of music), to indicate on the back, in manuscript, the works required or offered, and to erase or underline on the front the whole or part of the printed communications. (n) To paint fashion plates, maps, &c. (o) Birthday, Christmas, Easter, or New Year cards may have written on them complimentary or such like remarks together with the names and addresses of the senders, and of the person for whom the cards are intended, also the date of sending. (For example: 'To John Smith, with best wishes, from Mary Smith. Christmas, 1891.') But cards having messages or communications written on them such as 'Hoping to see you shortly,' 'Be sure to write soon,' will be liable to letter rate of postage.

Additions made in manuscript or by a mechanical process, which would deprive a printed paper of its general character and give it that of individual correspondence, are forbidden. Address cards, and all printed matter of the form and substance of an unfolded card, may be forwarded without wrapper, envelope, fastening, or fold. Cards bearing the inscription 'Post Card' are not allowed to go at the rate for printed matter.

Rate notices and other notices issued by municipalities, shire councils, and divisional boards may be sent within the colony as printed papers.

COMMERCIAL PAPERS.

The postage for commercial papers is—To places within Queensland and the Australasian Colonies, for each 2 ounces or fraction thereof, 1d.; to all places except the above, for any weight not exceeding 2 ounces, 3d.; between 2 ounces and 4 ounces, 3½d.; between 4 ounces and 6 ounces, 4d.; between 6 ounces and 8 ounces, 4½d.; between 8 ounces and 10 ounces, 5d.; between 10 ounces and 12 ounces, 6d.; each additional 2 ounces up to 5 lbs., 1d.

Commercial papers comprise all papers or documents written or drawn wholly or partly by hand (except letters or communications in the nature of letters, or other papers or documents having the character of an actual and personal correspondence), documents of legal procedure, deeds drawn up by public functionaries, copies of or extracts from deeds under private seal (and whether written or printed on stamped or unstamped paper), way-bills, bills of lading, invoices, and other documents of a mercantile character, documents of insurance and other public companies, all kinds

of manuscript music, the manuscript of books and other literary works, and other papers of a similar description, including written articles intended for publication in newspapers not being of the nature of personal letters, as well as written descriptions or hand sketches of places which are sent for publication. Acceptances, accounts receipted or unreceipted without remarks of any kind, bankers' packets containing bank-notes, cheques, cheque-books, drafts, or orders, sent by or to any bank, bank pass-books with covers endorsed and ends sufficiently open to enable officials to see that pass-books only are enclosed, and bills of exchange, written letters of old date which have previously passed through the post and served their original purpose, may be sent as commercial papers to any place within Queensland and the Australasian Colonies. Bankers' packets may be enclosed in covers sufficiently open to admit of postal officials seeing that nothing of the nature of a letter is enclosed therein. Packets containing bank-notes cannot be sent to New Zealand.

PATTERNS AND SAMPLES.

The postage on patterns and samples is—To all places within and beyond Queensland, for each 2 oz. or fraction thereof, 1d.

The pattern and sample post to all places beyond Queensland is restricted to *bonâ fide* trade patterns and samples of merchandise, and such patterns or samples must possess no saleable value. Articles of natural history, such as dried and preserved animals and plants, geological and scientific specimens, &c., may be exchanged with the countries of the Postal Union and the United States of America as samples, if sent for no commercial purpose.

Packets, not *bonâ fide* samples or patterns, may be sent by parcel post to any place within or beyond the colony to which the parcel post system has been extended.

Postage stamps, whether obliterated or not, not exceeding 16 ounces in weight, mineral specimens, seeds, wedding cake, queen bees, harmless entomological specimens, specimens of natural history, botanical specimens, &c., securely packed, may be sent as patterns and samples to any place in Queensland or the Australasian Colonies and Fiji. None of the articles enumerated can be sent as packets to any place beyond the Australasian Colonies.

Merchandise not exceeding 16 ounces in weight may be sent as patterns and samples within the colony, but if received from any place out of Queensland as a packet, such packet must be charged and dealt with as a parcel.

Bar gold and gold dust are passed through the post at double the letter rate of postage.

Patterns and samples when practicable must be sent in covers open at the ends and in such a manner as to be easy of examination; but samples of seeds, drugs, and such like articles which cannot be sent in covers of this kind may be posted enclosed in boxes or in bags of linen or other material fastened in such a manner that they may be readily opened.

Patterns and samples must not bear any writing except the name and address of the sender, the address of the addressee, a manufacturer's trade mark, numbers, prices, and indications relative to weight or size or to the quantity to be disposed of.

Such articles as scissors, knives, razors, forks, steel pens, nails, keys, watch machinery, metal tubing, pieces of metal or ore, provided that they are packed or guarded in such a way and so secure a manner as to afford complete protection to the contents of the mail-bags and to the officers of the Post Office, and at the same time to be easily examined, may be forwarded as samples to places within the colony. Liquids or glass, except bottles securely packed as above directed, or anything of a greasy nature, explosives, indigo, and colouring or other powders likely to damage the correspondence, are absolutely prohibited; also intoxicating liquors, unless sent as *bonâ fide* samples for trade purposes, not exceeding 4 ounces in weight, and having no saleable value; or opium, or any preparation thereof, unless medicinal.

Pattern and sample packets addressed to places within the colony (2 feet allowed by virtue of an arrangement with other Australasian Colonies), to India and the Australasian Colonies, must not exceed 18 inches in length, or 1 foot in

width and depth, and 16 ounces in weight; and for the United Kingdom 2 feet in length, 1 foot in width or depth, and 16 ounces in weight.

Pattern and sample packets are re-directed to any place within or beyond Queensland on the same conditions as letters.

Packets containing coin, jewellery, gems, watches, or any other valuable enclosure of the like kind must be registered, or they will be officially registered and charged the registration fee on delivery.

GENERAL PACKET REGULATIONS.

Books, printed papers, and commercial papers may be sent through the post without a cover (but not fastened with anything adhesive such as gum, sealing-wax, &c.), or in a cover entirely open at one end or side, or with the flap left unsealed, or fastened with a binder; if the cover be slit, the opening must be to the full extent of the end or side, and the contents must be easy of withdrawal. For the greater security of the contents the packets may be tied with string, but in such cases postal officials are authorised to cut or untie the string, but if they do so they must securely tie up the packets. Officers will, however, if possible, satisfy themselves as to contents without withdrawing them.

Officers of the Post Office may examine the contents of any package for the purposes of ascertaining whether they are in accordance with these Regulations, but such officers must securely refasten any packet so opened.

The limits of size for "printed papers" and "commercial papers" are—Length, 18 in.; (2 feet allowed by virtue of an arrangement with other Australasian Colonies); width or depth, 12 in.; and the weight must not exceed 5 lbs.

Packets unpaid or insufficiently prepaid, addressed to any place in Queensland, will be sent to their destination, but will be charged double the deficiency on delivery.

If wholly unpaid, or containing any letter, note, or communication having the nature of actual and personal correspondence, and addressed to any place beyond Queensland, they will be sent to the Dead Letter Office and returned to the sender on payment of the ordinary rate of postage.

If insufficiently prepaid, but having one rate of postage and addressed to any place beyond Queensland, they will be sent to their destination, but will be charged on delivery with double the deficiency.

If "commercial papers" are enclosed with "printed papers" or with "patterns and samples," the rates for "commercial papers" must be paid. Printed papers may, however, be enclosed with "patterns and samples."

"Printed papers," "commercial papers," and "patterns and samples" bearing or containing writing other than that authorised, or such as may be closed against inspection, or contain enclosures not authorised by the foregoing rules, except such as are absolutely prohibited, if addressed to any place within the Australasian Colonies, will be sent to their destination, surcharged double letter rate, less the postage already prepaid; if addressed to any other place beyond Queensland they shall be detained and sent to the Dead Letter Office for disposal. If, on being opened in the Dead Letter Office, a packet which has been surcharged as a letter, and refused by the addressee in consequence of such surcharge, is found to contain only enclosures entitled to pass at packet rates, and if it was fully prepaid at such rates, it shall be at once forwarded to its address, and be delivered without charge. If, in the case of a packet so surcharged, the addressee shall open it in the presence of a postal official, and it is found to contain only matter entitled to pass at packet rates, the surcharge may be refunded on application to the Chief Office. Such application shall be sent through the office at which the packet was delivered and examined, and must be endorsed by the officer in charge of that office.

Packets sent to places within Queensland or the Australasian Colonies to which there is a parcel post must not exceed 16 ounces in weight.

EXEMPTIONS FROM POSTAGE.

The undermentioned letters and packets may be sent through the Post Office as

exempt from postage:—All petitions or addresses to Her Majesty, His Excellency the Governor, and all petitions to the Governor in Council, the Legislative Council and the Legislative Assembly, not exceeding thirty-two ounces in weight, and without covers, or in covers open at both ends. Savings Bank books, from and to, and to and from, depositors and the Treasury; applications made by depositors (Savings Bank) for acknowledgments of deposits; applications or necessary letters of inquiry respecting the sums deposited by them, and for the replies thereto. All letters on Government insurances and annuities business; (provided that the words "Government Savings Bank," "Government Annuities," or "Government Life Insurance," as the case may be, are legibly marked on the outside cover). All letters and packets sent by the Post and Telegraph Department. *Telegraphic messages* posted for delivery in Queensland when bearing the word "Post" on the cover, and initialled by the Electric Telegraph officer in charge. Envelopes containing messages for transmission by telegraph from any place in Queensland, posted at any post office, not a telegraph office, with the words "Telegraph message only" written thereon above the address, and directed to the nearest telegraph office. The *Queensland Government Gazette*, when enclosed in an official cover with the words "On Her Majesty's Service," the title "*Queensland Government Gazette*," and the imprint of the Government Printer printed thereon, and open at both ends, shall (if received at a post office from the office of the Government Printer, but not otherwise) be exempt from postage if posted within seven days from the date of publication. Copies of the daily and weekly issue of the *Parliamentary Debates* published by the authority of Parliament shall, when bearing the imprint of the Government Printer and open at both ends, be exempt from postage if posted within seven days from the date of publication. Papers ordered to be printed by either House of Parliament shall, when bearing the imprint of the Government Printer and open at both ends, be exempt from postage if posted during the session in which they are ordered to be printed, or within one month thereafter. Ballot-papers forwarded by returning officers under the Divisional Boards Act, Harbour Boards Act, and Rabbit Boards Act, enclosed in covers endorsed "Voting paper, division of—," "Voting paper, Harbour Board," "Rabbit Board, voting paper, district of—," respectively, and the voting paper when completed and placed in a cover similarly endorsed, addressed to the returning officer. Where letters or packets containing only returns of births, marriages, and deaths are transmitted in compliance with the law in that behalf by persons whose duty it is to transmit such returns to an officer appointed to receive the same, it shall not be necessary to prepay the postage, but the postage shall be paid by the officer on delivery of the letters or packets, if, on the outside thereof, it is stated that they contain such returns only, and such statement is signed by the person transmitting the same. Letters or packets under *The Statistical Returns Act of 1896*, addressed to the Registrar-General, marked on outside, "Statistics."

—o—

NEWSPAPERS.

A publication coming within the following description and duly registered in the General Post Office, as hereinafter provided, shall be deemed a newspaper, that is to say:—

A publication consisting wholly or in substantial part of political or other news or of articles relating thereto, or to other current topics, with or without advertisements, and whether printed for sale or gratuitous distribution: Provided that—It is printed and published in Queensland; it has the full title and date of publication printed at the top of the first page, and the whole or part of the title and the date of publication printed at the top of every subsequent page, and of every table of contents and index; it is published in parts or numbers at intervals not exceeding one month; every such part or number shall be deemed a separate newspaper.

A publication coming within the following description shall be deemed a supplement to a newspaper, and may be transmitted with it, that is to say:—A copy of the daily or weekly issue of the Parliamentary Debates published by the authority of Parliament, or any publication consisting wholly or in substantial part of matter like that of a newspaper, or of advertisements printed on a sheet or sheets, or consisting wholly or in part of engravings, prints, or lithographs illustrative of articles in the newspaper, or of literary matter, the letterpress of the same being printed in Queensland from type set up in Queensland, or from stereotype plates made therefrom; and having the printer's name thereon, and further having the title and date of publication of the newspaper printed at the top of every page of the supplement, or at the top of every sheet or side on which the engraving, print, or lithograph appears. Any other matter accompanying a newspaper shall not be deemed a supplement.

The fee for the registration of a newspaper shall be 5s., which fee shall be paid when registration is applied for. On making the application it is necessary to give a description of the newspaper to be registered, to state the days of publication, and to furnish a certificate of the registration of such paper at the Supreme Court office.

A copy of each issue of every registered newspaper must be sent to the Postmaster-General, at Brisbane, and it shall not be necessary to prepay such copies.

Any proposed change in the form of a newspaper must be submitted for the consideration of the Postmaster-General.

Should the Postmaster-General consider that a newspaper has ceased to fulfil the prescribed conditions of a newspaper, as defined by the Post and Telegraph Act, the registration thereof shall be cancelled, and any number posted after intimation of such cancellation shall be treated and charged as a book packet.

The Postmaster General may refuse to transmit or deliver any publication containing seditious, blasphemous, or obscene words, and may revise the register and may remove therefrom any publication, a copy of which is posted as a newspaper, and which is not a newspaper as hereby defined, or a posted copy of which contains seditious, blasphemous, or obscene words.

All unregistered newspapers are treated and charged as book packets.

The registration of a newspaper at the Post Office is only intended to apply to transmission through the post, and it does not in any way affect the registration required to be made at the Supreme Court.

Postage on newspapers published and printed in Queensland :—

To places Inland and British New Guinea	each newspaper, not exceeding 10ozs. . . .	½d.
	for every additional 10ozs. or fraction thereof . .	½d.
To places Intercolonial, including Victoria, Tasmania, New South Wales, South Australia, New Zealand, Western Australia, Fiji, and the New Hebrides . .	each newspaper, not exceeding 2ozs. . . .	½d.
	for every additional 2ozs. or fraction thereof . .	½d.
To the United Kingdom and Foreign Countries	each newspaper, not exceeding 4ozs. . . .	1d.
	every additional 2ozs. or fraction thereof . .	½d.
Postage on Foreign or Intercolonial newspapers posted in Queensland—		
To places Inland and British New Guinea	each newspaper, not exceeding 10ozs. . . .	1d.
	for every additional 10ozs. or fraction thereof . .	1d.
To places Intercolonial	each newspaper not exceeding 2ozs. . . .	½d.
	for every additional 2ozs. or fraction thereof . .	½d.

To the United Kingdom or Foreign Countries	each newspaper, not exceeding 4ozs. . . .	1d.
	for every additional 2ozs. or fraction thereof . .	$\frac{1}{2}$ d.

Bulk bundles, consisting of at least four newspapers, with or without supplements printed and published in Queensland, not exceeding 14lbs. in weight, will be forwarded at the rate of 1d. per lb., to places within the colony only, if posted by a recognised newspaper publisher or newsvendor, who must register his name at the local post office; such charge shall be levied on the aggregate weight of the parcels lodged at any one time. The postage stamps must be affixed to the "newspaper postage docket," and must be cancelled by the person posting the newspapers writing or impressing his name, together with the date of posting, across the stamps, and the post office receiving officer shall impress the docket with the date stamp of the office and send it to the Accountant at the Chief Office by the first mail. The bundles must be stamped at the receiving office with the "paid at" stamp and the date stamp of the office.

Every newspaper must be sent without a cover, or in a cover open at both ends, folded or covered so that the title can be recognised.

There shall not be in or upon any newspaper or the cover thereof any communication, character, figure, letter or number other than the words "Newspaper only," or a mark to indicate any report, article, or paragraph therein; the printed title of the newspaper; the printed names, occupations and places of business of the printer, publisher, and vendor thereof; and the name, occupation, and address of the person to whom it is sent, and the name of the person sending the newspaper.

There shall not be anything except the supplement or supplements proper to the newspaper enclosed in or with or accompany the newspaper or cover.

If any inset or handbill is placed inside or between the pages of a newspaper, but has no connection therewith as a part of such newspaper within the meaning of these Regulations, the newspaper containing such inset or handbill shall be charged postage as a book packet.

If a newspaper addressed to any place within the Colony be found to contain writing or any illegal enclosure it may be forwarded to its destination charged according to its weight, with the full rate of postage to which the enclosure would properly be subject; but if the newspaper be addressed to any place beyond the Colony, it shall be detained, and shall in due course be sent to the Dead Letter Office. This Regulation shall apply to any newspaper whether posted in the Colony or received from places beyond.

Newspapers addressed to several persons, to be delivered separately at each address, must not be tied up in bundles, and each newspaper must bear the proper postage.

Two or more newspapers to the same address can be tied together, but the outside newspaper or wrapper must bear on its face or addressed side the full postage for each paper, and the parcel should be tied so that the number of papers can be counted.

Newspapers (not being those forwarded as bulk parcels) made up in packets bearing the same address can be transmitted at book rates of postage, but the weight of any such packet must not exceed 4lbs.

Any newspaper, or parcel of newspapers, addressed to any place in the Australasian Colonies, not bearing the full postage, will be surcharged on delivery with double the deficient postage. Insufficiently paid newspapers for other countries cannot be transmitted, and will be detained and destroyed unless otherwise directed.

Newspapers originating in the Colony redirected from one post office to another within the Colony may be transmitted accordingly, but are chargeable with a fresh newspaper rate of one halfpenny each, which must be paid on redirection or on delivery; those originating beyond the Colony are charged 1d. each on redirection or delivery.

Magazines and periodicals, posted outside the Colony for delivery in Queensland

as newspapers, must be prepaid at the prescribed rate of $\frac{1}{2}$ d. for every 2ozs. or fraction thereof, and if not so prepaid must be charged double the amount deficient at that rate.

The collected number of newspapers issued during the month of a weekly or fortnightly publication, whether stitched or unstitched, are not allowed to pass as a single publication, but each number must be paid for as a separate newspaper.

Single newspapers from publishers, bearing $\frac{1}{2}$ d. postage stamp, will be conveyed by railway to all stations; also parcels of newspapers from publishers up to 1lb. in weight, having a 1d. stamp affixed, addressed, and to be delivered to one person or firm. The newspapers must be fully addressed and stamped and to admit of the stamps being obliterated they must be delivered at the Railway Parcels Office not later than ten (10) minutes before the train is due to start.

Newspapers intended for conveyance by mail services beyond the railway line must be sent through the Post Office in parcels not exceeding 14lbs.

If a newspaper printed and published in any of the Australasian Colonies and addressed to any place in Queensland is found to contain any advertisement or other matter in contravention of the Suppression of Gambling Act or the Indecent Advertisement Act, such newspaper shall not be transmitted or delivered, but shall be forthwith sent to the Dead Letter Office to be returned to the colony of origin or otherwise dealt with as the Postmaster-General may direct.

REGISTRATION.

The fee for registering a letter, packet, or newspaper, to all places within or beyond the Colony is threepence, and this fee as well as the proper postage must be prepaid by means of adhesive postage stamps affixed to the cover.

Every article for registration must be handed to the postmaster or postal officer, and a receipt obtained for it on the proper form. If an article intended to be registered is simply posted in the receiver it is liable to be treated as an ordinary article, and the extra stamps, if any, on it forfeited.

The registration fee on letters and books on Savings Bank business, posted by Savings Bank officers in the country districts and addressed to the Savings Bank Head Office, need not be paid in advance as it will be collected on delivery.

If a registered article posted in Queensland and addressed to any country of the postal union which admits the principle of responsibility for the loss of registered articles be lost, an indemnity not exceeding forty shillings will be paid to the sender, or, at his request, to the addressee of the lost registered article. Registration does not render the Department liable to any further extent.

The sender of any registered article may obtain an acknowledgment of its due delivery to the addressee by affixing to the article a postage stamp of the value of $2\frac{1}{2}$ d., placed apart from the others, in addition to the registration fee of 3d. and the ordinary postage. The sender must also write his name and address legibly on the back of the article before tendering it for registration.

RE-DIRECTION.

Inland and intercolonial letters, packets and newspapers, on being re-directed, are charged the same amount of postage, in addition to the original postage, as would be payable if such letter, packet, or newspaper were originally posted at the place of re-direction, unless both the original and the second address are within the delivery of the same post office, and even in that case they are not exempt from a second postage unless the re-direction be made by an officer of the Post Office.

For purposes of re-direction the whole of the letter carrier's delivery in any town is regarded as within the official delivery of such town.

Soldiers' and sailors' letters under Section 14 of the Post and Telegraph Act are exempted from any charge for re-direction.

Correspondence of all kinds, ordinary or registered, which, being wrongly or insufficiently addressed, is returned to the senders in order that they may rectify or complete the address, is not, when posted with the direction rectified or completed, regarded as re-directed correspondence, but as being really fresh correspondence, and is consequently liable to a fresh postage.

LETTERS AND PACKETS SUPPOSED TO CONTAIN ARTICLES LIABLE TO CUSTOMS DUTY.

Upon receipt at any post office of a letter or packet supposed to contain an enclosure liable to Customs duty, such letter or packet must be endorsed "Duty," and be immediately sent to the post office at the nearest port or place of Customs entry to be dealt with.

When a letter supposed to contain an enclosure liable to duty is received at such post office, the addressee must be advised of the fact, and informed that the Customs authorities must be satisfied as to the character and value of the enclosure, either by the production of an invoice or other satisfactory evidence; if this cannot be done he must authorise the postmaster in writing to deliver the letter to the Customs officer to be opened in his presence for examination and valuation. If this authorisation is not furnished, the letter must be forwarded to the Dead Letter Office to be dealt with, and it may be delivered to the Customs as directed by Section 45 of the Post and Telegraph Act.

Packets containing articles supposed to be liable to Customs duty must be dealt with in the same way as parcels—that is, they shall be at once opened, examined, and valued by a Customs officer, in the presence of the postmaster or other postal officer, without reference to the addressee.

When a letter or packet has been examined and found to contain articles liable to Customs duty, the amount for such duty must be marked on the cover, and the letter or packet transferred to the parcel post. Ordinary letters and packets when thus transferred to be forwarded to the sub-duty offices in the same manner as provided for parcels, and entered in the same way on the duties payable list, but distinguished in the margin as letters and packets respectively. Registered letters and packets in addition to being treated as prescribed, must be also entered in the registered parcel list in the same way as registered parcels.

On receipt of such letters and packets at the sub-duty offices they are to be treated in the same manner as other dutiable parcels are treated so far as the collection and accounting for duty is concerned, otherwise they are to be dealt with as registered or ordinary letters and packets respectively.

When the amount due for duty on a letter or packet does not exceed one shilling, such letter or packet shall be sent by the first mail to the office to which it is addressed, and the duty charged thereon entered on the letter bill as postage, and collected and accounted for in every respect in the same manner as postage is collected and accounted for.

ARTICLES NOT ALLOWED TO BE SENT BY POST.

Any blasphemous, indecent, or obscene print, painting, photograph, lithograph, engraving, book, or card, or any other indecent or obscene article, or any letter newspaper, publication, packet, or card having thereon any words, marks, or designs of an indecent, obscene, libellous, or grossly offensive character; also any explosive, dangerous or noxious substance, any living creature (except bees), or anything likely to injure the contents of the mails or any officer of the Post Office.

Under the Parcel Post, however, razors, scissors, needles, knives, forks, or other sharp instruments are permitted to be forwarded if so packed as to prevent all risk of injury to other parcels or to the officers of the Post Office. Liquids, or semi-liquids, such as paint, &c., glass in any form, are also received if so packed as to be secure from breakage.

The transmission by post of gold, silver, precious stones, jewellery, &c., is prohibited in the countries indicated in the Post and Telegraph Guide. Such articles may, however, be sent to such of the countries not so marked as have parcel post exchanges with Queensland, except in cases where the Parcel Post Regulations specially exclude their admission.

It is specially prohibited to introduce into Queensland—Any book infringing the laws relating to copyright, false or counterfeit money or coin, all articles of foreign manufacture bearing an English trade mark or otherwise represented as of

British manufacture, sugar-cane cuttings from Java, grape vines, grape-vine cuttings, and grapes in bunches, or any article prohibited by the Customs laws or regulations.

Tobacco is not allowed to be sent to the United Kingdom by sample post, except unmanufactured samples of type tobacco for trade purposes. Such samples, provided that their gross weight does not exceed 4 ounces, will be handed to the addressees upon payment of a charge of 8d. for customs duty.

SALE OF POISON BY LETTER.

When a sale of poison is made by correspondence, the letter ordering the poison shall be preserved by the vendor, and a memo. made of the date of the letter, writer's name and particulars of the poison ordered; *if the poison is transmitted by post, the letter containing it shall be registered.* No person shall sell poison ordered by letter to any person with whose signature he is not acquainted, unless it is witnessed by a J.P. or a minister of religion, or is authenticated by some person known to the vendor.

POST CARDS.

Post Cards, single and reply, whether official or private, may be sent by post, subject to the following conditions and regulations:—

Single Post Cards, impressed with a Queensland penny stamp, or having undefaced adhesive Queensland stamps of the value of one penny affixed thereto, may be transmitted between places in Queensland and to the Australasian Colonies, including British New Guinea, Fiji, and the New Hebrides. Similar cards, having an undefaced Queensland stamp or stamps of the value of three-halfpence impressed or affixed thereto, may be sent to any place beyond the Australasian Colonies.

Reply Post Cards—that is, double cards—may be transmitted between places in Queensland and to the Australasian Colonies, provided each half has impressed or affixed thereon an undefaced Queensland stamp of the value of one penny. Reply cards, intended for transmission to places beyond the Australasian Colonies, must have, impressed or affixed to each half, undefaced Queensland stamps of the value of three-halfpence.

The conditions prescribed for single post cards must be observed in respect of each half of reply post cards; one half must be doubled over the other, and the half cards must not be closed up in any manner whatsoever. The reply half of a post card received from any place outside the Colony can be sent without charge only to the country in which it originated; if addressed to any other country it will be treated as an unpaid letter. The sender of a reply post card may indicate his name and address on the face of the reply half, either in writing or by means of a label attached to it.

Post cards must be sent unenclosed. The face is reserved for the postage stamps, for inscriptions relating to the Postal Service, such as "Registered," "Via San Francisco," &c., and for the words "Post Card" or "Queensland, Reply Post Card," and for the address at which it is to be delivered. The address may be written or affixed by means of a gummed label, which must not exceed two inches in length and one inch in width.

On the reverse side any communication, whether of the nature of a letter or otherwise, may be written, printed, engraved, or designed, provided it is not of an obscene, libellous, or obviously objectionable character. Nothing whatever shall be attached to the card except the necessary postage or duty stamps (in event of the card being used as a receipt for money), or a label with the address as aforesaid, nor shall the card be folded except as aforesaid, cut, or in any respect altered.

Private cards may be used as post cards. They must have undefaced adhesive Queensland postage stamps affixed for payment of postage, and must be composed of ordinary cardboard, and be of the size and substance of the official post cards, and of approved colour.

When, owing to a great and unusual influx of letters, packets, &c., the transmission or delivery of the letters would be delayed if the whole mail were dealt with without distinction, post cards may be kept back until the next despatch or delivery.

Post cards infringing these Regulations, excepting that relating to obscene, seditious, libellous, and objectionable matter, will, if addressed to places within the colony, be charged as letters, and if for places beyond the colony will be returned to the senders charged with ordinary postage. Objectionable, seditious, libellous, or obscene cards will not be transmitted.

In no case will an unclaimed post card be returned to the sender, but it will be sent to the Dead Letter Office and destroyed.

The conditions under which cards may be impressed with the penny postage stamp are as follow :—A week's notice must be given by the applicant to the Chief Office, and a sample of the cardboard it is proposed to use submitted. None but cardboard of approved quality and colour will be accepted. Each sheet of cardboard must be of the size of 25 inches by 20 inches, and must not exceed 3 ounces in weight. Not fewer than fifty sheets of cardboard can be received at one time. On each sheet the applicant's name or monogram is to be embossed or printed, and any printing must be thoroughly dry. Cards when impressed will be returned to the applicant in sheets of twenty-one impressions. No fee will be charged for stamping. Cash must accompany all cards to be impressed. No commission will be allowed on cards impressed for licensed vendors.

POSTAGE STAMPS.

The following denominations of stamps are supplied by the Post and Telegraph Department :— $\frac{1}{2}$ d., 1d., 2d., $2\frac{1}{2}$ d., 3d., 4d., 5d., 6d., 1s., 2s., 2s. 6d., 5s., 10s., and 20s., and, with the exception of the 1d. stamp, are to be used for postal purposes only. The 1d. stamp may be used for duty as well as postage.

Any company, firm, or person, *with the permission in writing of the Postmaster-General*, may perforate stamps or post cards with letters, figures, or designs approved in such writing, and stamps so perforated shall not be considered to be defaced, and may be used for postage on letters, packets, and newspapers; *but the public are cautioned against purchasing perforated stamps.*

All *letters, packets, and newspapers* posted in Queensland that are required to be prepaid, must bear *undefaced Queensland stamps.*

Duty stamps are supplied by the Treasury.

LETTER CARDS, POST CARDS, AND NEWSPAPER WRAPPERS.

The following shall be the rates payable for letter cards, post cards, and newspaper wrappers :—

Letter Cards, 2d. each.

Post Cards, Inland and Intercolonial, single, 1d.; reply, 2d.

Post Cards, British and Foreign, single, $1\frac{1}{2}$ d.; reply, 3d.

Newspaper wrappers, 1d. and $\frac{1}{2}$ d. each.

LETTER CARDS.

Letter cards, consisting of a double card, which may be closed against inspection, having printed thereon a postage stamp of the value of twopence, may be purchased for twopence each, and are available for transmission without additional postage to any place within the colony, and to British New Guinea, New South Wales, Victoria, South Australia, Western Australia, Tasmania, New Zealand, and Fiji. Nothing whatever shall be written, printed, or otherwise impressed on the front or stamped side of a letter card, except the address, and inscriptions relating to the postal service, such as "Registered," "Via Sydney," "Per Steamer," &c. If anything is enclosed in, or attached to, a letter card it will be treated as a letter, and if the stamps thereon are not equal to the letter rate of postage, the deficiency at that rate, and an equal amount as a fine, will be charged and collected on delivery. Letter cards that may be unclaimed will be treated as unclaimed letters.

PRIVATE BAGS.

The charge for a Private Bag is £2 2s. per annum, payable in advance. Payments must be arranged so that renewal fees fall due on the 1st January; new subscribers to pay the proportion from the first day of the quarter in which they commence to the end of December. The bag must be provided at the cost of the person requiring it; if furnished with a lock, two keys are necessary—one for the postmaster and the other for the owner. The postmaster will lock or seal the bag for despatch, and it must be returned in like manner; if a seal is used the impression must be made known to the postmaster. The bag may contain letters, packets, parcels, newspapers, and other postal matters for all persons who give written authority to the postmaster to enclose them; but it must be distinctly understood that the person who pays for the private bag is responsible for the postage of all unpaid letters, for the receipts for those registered, also for the acknowledgments of delivery being signed by addressees and returned to the Post Office. In case of non-payment of postage or detention of registered letter receipts or acknowledgments, the postmaster may decline to forward any more letters of those classes. A contractor is bound to convey and deliver, free of charge, all bags given him by the postmaster or under his instruction, but he is not required to deviate from the usual mail route or road, and is on no account to be delayed. Should the return bag not be ready at the appointed time and place, the contractor must not wait for it.

PRIVATE BOXES.

The charge for a Private Box, with or without a lock, is £1 10s. per annum, payable in advance. Payments must be arranged so that renewal fees shall fall due on the 1st of January. New subscribers shall pay the proportion from the first day of the quarter in which they commence to the end of December. Two keys will be supplied with each lock-box without extra charge; if more are required they will be charged for at 2s. 6d. each, and keys must not be obtained elsewhere than from the Department. In the event of a key being lost, the information must at once be given to the local office, and the remaining keys returned. A new lock will then be fitted to the box, and new keys supplied, for which 7s. 6d. will be charged. It must be distinctly understood that Private Boxes are only let upon the conditions mentioned, and that upon any breach thereof the Department can at once withdraw permission for the use of a box. On the discontinuance of a lock-box the keys must be returned by the holder, as they are the property of the Government. A private box or bag shall not be allowed to anyone against whom a prohibition order has been issued under Section 49 of "*The Post and Telegraph Act, 1891.*"

PARCEL POST.

INLAND.		INTERCOLONIAL.		UNITED KINGDOM.	
Not exceeding—	s. d.	Not exceeding—	s. d.	Not exceeding—	s. d.
1lb. ..	0 6	1lb. ..	0 8	2lb. ..	1 6
2lb. ..	0 9	2lb. ..	1 2	3lb. ..	2 3
3lb. ..	1 0	3lb. ..	1 8	4lb. ..	3 0
4lb. ..	1 3	4lb. ..	2 2	5lb. ..	3 9
And so on at the rate of 3d. per lb. up to 11lb.		And so on at the rate of 6d. per lb. up to 11lb.		And so on at the rate of 9d. per lb. up to 11lb.	

The following are the Regulations under which inland parcels will be accepted from the public, transmitted, and dealt with :—

Inland parcels shall mean and include all parcels received at any post office in Queensland for delivery therein. The words "parcel" and "parcels," wherever they occur in these Regulations, shall mean respectively "inland parcel" and "inland parcels."

Limit of weight of parcel shall be 11lb.

Limit of size of parcel shall be 3ft. 6in. in length, or 6ft. in girth and length combined

Postage (to be prepaid by stamps):—1lb. or under, 6d.; each additional lb., 3d. The stamps to be fixed to an adhesive label, obtainable at any Parcel Post Office by the sender, and the label to be attached to the parcel by the Postal Receiving Officer after he has ascertained the weight.

No parcel will be accepted unless fully prepaid as above.

Parcels posted in letter-boxes or not duly handed to an officer of the Department will be regarded as irregularly posted; if not exceeding 1lb. in weight, such parcels will be forwarded as letters or packets under the rule relating thereto, but when in excess of that weight they will be returned to the sender on payment of an additional fee of sixpence for each parcel.

Parcels may be registered upon payment in stamps of an additional fee of threepence, and for an additional twopence halfpenny a receipt will be obtained on delivery, which will be forwarded to the sender by post.

No parcel may contain a letter, coin, bank notes other than Treasury notes, bars of gold or gold dust, or consist of or contain two or more parcels or other postal packets of the same or of different descriptions, addressed to different persons at different addresses. This Regulation does not prohibit the enclosure of invoices, business cards, or printed circulars, or advertisements, price lists, particulars of contents of or receipted account for such parcel. No parcel must bear on the outside any indecent, obscene, profane, or libellous address, signature, marks, words, or designs, or contain any indecent or obscene print, photograph, lithograph, writing, engraving, book, or card, or other indecent or obscene article; nor must there be enclosed in any parcel articles of an offensive nature or liable to sudden combustion, or of a dangerous, destructive, or explosive character (cartridge cases and percussion caps if packed in soldered tins excepted), or any intoxicating liquor except such as may be sent as *bonâ fide* samples for trade purposes in quantities not exceeding 4 ounces and of no marketable value, or opium or any preparation thereof unless medicinal. Live animals, reptiles, game, fish, butter, eggs, or anything likely to do injury to persons or parcels will not be forwarded. Parcels containing fruit, liquids, or semi-liquids, such as jellies, pickles, varnish, paint, medicines, &c., will be accepted conditionally upon their being so securely packed that the contents cannot escape, and the vessels in which they are contained are sufficiently strong to prevent breakage in transmission.

NOTE.—Parcels posted in Queensland are, by special arrangement with the contractor, carried to and from Canterbury, Mooraberrie, Betoota, Birdsville, and intermediate stations at a rate, including postage, of 6d. per lb.

Parcels will be received at the Parcel Office, Brisbane, from 9 a.m. to 5 p.m. daily, Saturday excepted; on Saturdays they will be received from 9 a.m. to noon. Parcels will be received at other offices during such times as they may be open for the transaction of postal business.

Applications or complaints regarding parcels should be addressed to the Under Secretary.

MONEY ORDERS.

Money may be remitted by means of Money Orders to places in Queensland, the other Australian Colonies, on India, Canada, the United States of America, and Germany, in sums not exceeding £20 in single orders, and to other places in sums not exceeding £10 in single orders. Fractions of a penny are not allowed. The rates of commission to be charged are as follow:—Payable in Queensland—For each £5 or fraction thereof, 6d.; Payable in Australian Colonies, Tasmania, and New Zealand—Not exceeding £2, 6d.; above £2 and not exceeding £5, 1s.; above £5 and not exceeding £7, 1s. 6d.; above £7 and not exceeding £10, 2s.; above £10 and not exceeding £12, 2s. 6d.; above £12 and not exceeding £15, 3s.; above £15 and not exceeding £17, 3s. 6d.; above £17 and not exceeding £20, 4s. The limit for single orders for the colonies named being £20; the same proportion is to be charged for sums exceeding £10. Payable in Fiji, not exceeding £2, 6d; above £2, and not exceeding £5, 1s.; above £5 and not exceeding £7, 1s. 6d; above £7 and not exceeding £10, 2s. Payable at all other places—6d. for each £1 or fraction thereof. Money may be remitted by telegraph to any Money Order Office which is also

2. Telegraph Office in Queensland, New South Wales, Victoria, South Australia, Tasmania, Western Australia or New Zealand, on payment of the minimum charge for a telegram irrespective of the amount in addition to the rate of commission, excepting for those on New Zealand, for which the charge is 5s. The remitter should advise the payee by a telegram paid for in the ordinary manner. Money Orders may be issued on places in Queensland, New South Wales, Victoria, South Australia, Western Australia, Tasmania, New Zealand, Fiji, Straits Settlements, Germany, Ceylon, Egypt, Cape of Good Hope, Orange Free State, the Transvaal, and British Bechuanaland, Canada, Zululand, Natal, Basutoland, Mashonaland, Matabeleland, Northern Zambesia, British North Borneo, Kudat, Labuan, Sandakan, and Sarawak, the United States of America, Hongkong (including the agencies at Amoy, Canton, Foochow, Hankow, Hoihow, Ningpo, Shanghai, and Swatow); Formosa (Anping, Keelung, Taichu, Tainan, Taipei, Taitotai, Takaw, and Tainsui); India (including Burmah, and the agencies at Aden, Bagdad, Bahrain, Bassorah, Bunder-Abbas, Bushire, Guadur, Jask, Linga, Mohammerah, and Muscat), Japan (a), United Kingdom (including agencies at Constantinople, Panama, and Smyrna).

POSTAL NOTES.

Postal Notes are sold, and paid or cashed at all Money Order Offices during the hours they are open for Money Order business, and at other offices as notified from time to time.

The following are the denominations of Postal Notes and the fee or poundage charged for them:—

Postal Note.				Poundage.				Postal Note.				Poundage.			
s.	d.			s.	d.			s.	d.			s.	d.		
1	0	1	2	4	6	1	0
1	6	1	2	5	0	2	0
2	0	1	0	7	6	2	0
2	6	1	0	10	0	3	0
3	0	1	0	10	6	3	0
3	6	1	0	15	0	3	0
4	0	1	0	20	0	3	0

Broken sums of pence not exceeding 5d., and not being fractions of a penny, may be remitted by affixing undefaced Queensland stamps to the face of the note, and the amount of the note and stamps will be paid.

—:O:—

ELECTRIC TELEGRAPH.

Telegraph Offices are open to the public between the hours of 9 a.m. and 6 p.m. daily, Sundays and Holidays excepted; on Sundays, Good Friday, and Christmas Day, from 9 to 9.30 a.m., for business at double rates, and on Government holidays from 9 to 10 a.m. and 5 to 6 p.m. Prepaid telegrams only may be dropped into the box, provided at each Telegraph Station for the purpose, at any time when the office is closed, and will be transmitted when business is resumed. Such telegrams, with full fee, must be enclosed in sealed envelopes.

REGULATIONS.

1. All messages will be held *strictly confidential*. 2. Messages tendered for transmission must be written with ink, in a legible manner, in plain language, on the proper form, and the address must contain all information necessary to avoid delay and ensure delivery. The signature of the sender will be required in authentication of each message, and as subscribing to the conditions under which such message is transmitted. To ensure greater accuracy, all amounts must be expressed in words as well as figures. Charge will be made for the words only. 3. Payment of all charges in advance will be required, except—(a) For replies to interrogatory messages which contain the words “*Reply Paid*,” (b) For messages for transmission within the colony of Queensland, marked “*Collect*,” when the sender is known to the officer in charge of the despatching station, and guarantees, in writing, that in the event of the message not being paid for on delivery, it will be paid for on demand by the sender. In all such messages the word “*Collect*” must be written by the sender as the last word of the message to be despatched. (c) Press messages to be paid for at receiving station on delivery. 4. The address, signature, name of sending station, and the date, hour, and minute of the deposit of the message will be transmitted without charge. When the sender wishes to pay for a reply, or have the message repeated or posted, instructions are to be inserted in the address immediately before the name of the terminal station. Messages which are addressed beyond the limits of delivery, can be posted to their destination free of charge. 5. Ordinary rates will be charged for Inland and Intercolonial Telegrams, in any one of the following languages, namely, English, French, German, Italian, Dutch, Portuguese, Spanish, and Latin. Words must be used consecutively in their ordinary signification so as to be intelligible to persons familiar with those languages. Every message in any admitted language, other than English, having no connective meaning (any English dictionary word containing more than fifteen letters), and groups of letters, shall be regarded as cipher, and all such words shall be charged as two words, provided that such extra charge shall not in any case exceed 50 per cent. on the ordinary rate which would be payable on account of the said telegram. Groups of five letters or five figures count as one cipher word. 6. Messages will be transmitted in the order of their reception, unless on the service of the State, or matters relating to the administration of justice, in which cases precedence may be given. 7. Messages will be delivered free within one mile of the station to which addressed, railway stations excepted. If beyond that distance, according to the instructions contained in the address. Expenses incurred for portage, cab hire, or boat hire, payable by the receiver, will be charged. Messages which are addressed beyond the limits of delivery or which do not contain special directions as to transport, may be posted to their address by the terminal telegraph station free of charge. 8. Telegrams will be available for inspection by the sender or receiver at the Brisbane Central Telegraph Office, or certified copies thereof may be obtained during a period of one year from the date of transmission. If full particulars are furnished, the fee charged is one shilling; but where full particulars are not forthcoming, the fee is two shillings and sixpence. 9. In the event of any interruption to communication by which messages may be unusually delayed, it will be optional with the senders, on application *before transmission*, to withdraw their messages and receive back the amount paid. 10. The originals of messages received, and duplicates of messages issued, will be kept for *one year*, after the expiration of which period they will be destroyed by fire in the presence of an officer of the department. 11. If desired, messages of consequence can be repeated from stations at which received to stations from which originally sent on payment of an additional half rate; but no responsibility will be undertaken, nor any claim for compensation entertained for any errors or mistakes in transmission or delay in delivery of messages, whether repeated or unrepeatd, nor of non-transmission or non-delivery of messages from whatever cause such errors or mistakes in transmission or delay in transmission or delivery or non-transmission or non-delivery

may arise. 12. Telegrams to stations within the colony marked "Urgent" will be received at any telegraph station and transmitted as *urgent messages* in the order of their priority with other messages of the like code, and shall take precedence of all ordinary messages. The fee for an urgent telegram is double that charged for an ordinary message. 13. O.H.M.S. messages, excepting those signed by His Excellency the Governor or Ministers of the Crown, must not be marked "Urgent," but may take precedence of *ordinary messages* as per Regulation 6. Heads of Departments, or officers in charge of branch offices will be required to pay for any service message they wish to have forwarded under the "urgent" regulation.

Envelopes containing messages for transmission by telegraph, from any place in Queensland, posted at any Post Office not a Telegraph Office, with the words "Telegraph Message only" written thereon above the address, and directed to the nearest Telegraph Office, may be forwarded free of postage; and the officers in charge of the Telegraph Office, to which such envelope may be addressed, shall transmit the message contained therein to its destination, provided the full fee, either in cash or unobliterated postage stamps, be also enclosed.

TELEPHONES.

Applications for connection with the telephone system through the Central Exchange at the General Post Office or otherwise should be forwarded to the Under Secretary, G.P.O., Brisbane. The erection of telephone lines will, except under special circumstances, be carried out by the Government. For connection with the Central Telephone Exchange at the General Post Office, Brisbane, for a day and night service (including the advantage of communicating with the telephone exchanges in the suburbs of Brisbane), subscribers will be charged the following rates:—

	Per Annum.
Providing line of half-mile or under, one telephone set complete, and service at exchange	£6 0 0
Each additional half-mile of line or fraction thereof ..	1 5 0
Extra set of telephones, each	2 0 0
Magneto extension bells, each	0 10 0

Special appliances as per agreement. The rate for suburban and country telephone exchanges are about the same.

NOTE.—When a subscriber already owns an instrument, its maintenance will now be borne by the Government, and a new instrument supplied when necessary. Existing instruments will not be allowed to remain in use if they are in any way faulty.

New lines must be rented for not less than one year; and thereafter one calendar month's notice of intention to discontinue the use of the line is required. First year's rent must be paid in advance, and thereafter half-yearly in advance.

Public telephones are now available at following charge:—Any period not exceeding three minutes, 3d., and 3d. for every additional three minutes or part.

Arrangements can be made with the Department for the erection of private telephones.

TRANSMISSION OF TELEGRAMS BY TELEPHONE.

Subscribers to Telephone Exchanges in Queensland may transmit by telephone, messages intended for transmission as telegrams from the telegraph offices connected with the Exchanges.

Subscribers may also, at their option, have telegrams addressed to them forwarded by the telephone from the exchanges connected with the telegraph offices of destination, and copies of such telegrams shall be posted to their address free, marked on the face "Transmitted by telephone."

Agents for Baker & Rouse's Photographic Material

 Cameras, Chemicals, Plates, Mounts, etc., etc.

THE TRADE SUPPLIED.

COWIE & COWLAND,
EAST ST., ROCKHAMPTON.

Subscribers who wish to use this system have the option of paying—

At the rate of £5 5s. per annum, payable in advance; or

For each five minutes, or fraction thereof, occupied in transmitting any telegram or telegrams by telephone, 6d. If this method is used, an advance sufficient to cover the probable expense for one month must be made with the Telegraph Office connected with the Exchange; the account will be adjusted monthly or oftener, if necessary, and the Telegraph Office must be kept in funds.

The transcription of telegrams telephoned by subscribers will, so far as the Department is concerned, become the original telegrams. No extra charge will be made for these services.

INTERNATIONAL TELEGRAMS.

By the system of registration of name and address, and the adoption of the word scale of charging the cost of telegraphing between Brisbane (or any other leading town in Queensland), and London and many of the principal cities of India, China, Japan, Europe, United States, and other countries, has been reduced. The name and address of the sender and receiver being registered at the points of departure and arrival, a single word, letter, or number serves for their identification.

A record is open at the Brisbane Central Telegraph Office for the registration of the full address, at which foreign telegrams reaching Brisbane, and bearing abbreviated or arbitrary addresses, are to be delivered. An annual registration fee of ten shillings, or of two and sixpence for one month, is charged for the registration in each cable code address. Application for registration to be made by letter to the Under Secretary and Superintendent of Electric Telegraphs.

Addresses may also be registered at any Government Telegraph Office in England or Scotland, upon the payment of one guinea to the Postmaster-General, London. This registration can be effected only at the telegraph station in the town where the firm is established, and not by letter from Australia to London, or *vice versa*, as different firms sometimes select the same code word.

The principal conditions under which messages are transmitted, are as follows:—All messages are charged according to a tariff per word. All that the sender writes on the telegram form for transmission to his correspondent, is charged for.

The name of the station whence sent, the date and time of the deposit of the message is officially inserted in the message and supplied to the receiver free of charge.

The maximum length of a word in plain language, is fixed at fifteen letters, any additional letters being counted and charged for as extra words at the rate of fifteen letters to the word. In code language the maximum length of a word is fixed at ten letters.

Telegrams may be written in plain language, or in secret language, that is, of code words.

SCALE OF CHARGES.

Queensland.	Each additional	
	Ten words.	word.
	s. d.	s. d.
Between all Stations in Queensland, exclusive of address and signature	1 0	.. 0 1
With the following exceptions:—		
Between Brisbane, Albion, Ascot, Bulimba, Brunswick street Railway Station (Brisbane), Coorparoo, Corinda, Eagle Junction, Fortitude Valley, Indooroopilly, Kedron Park, Melbourne street, Mooraree, Nudgee, Nundah, Oxley, Paddington, Park Road, Petrie-terrace, Red Hill, Rocklea, Roma street Railway Station (Brisbane), Sherwood, South Brisbane, Sunnybank, Taringa, Toowong, Woolloongabba, Yeerongpilly, and all stations within a radius of six miles from the General Post Office (exclusive of address and signature)	0 6	.. 0 1
Between any station in Queensland and N.S.W. border stations—viz., Barrington, Boggabilla, Cinderah, Cudgen, Goodooga, Hungerford, Jennings, Mingoola, Mungindi, Murwillumbah, New Angledool, Parragundy (Telephone), Tumbulgum, Tweed Heads, and Yetman, exclusive of address and signature	1 0	.. 0 1

SCALE OF CHARGES—Continued.

The border stations in Queensland are Goondiwindi, Texns, Wallangarra, and North Killarney.

Telegrams marked "Urgent" double rates. Sunday telegrams inland and intercolonial:—

(a) "Urgent" and ordinary messages, one hundred (100) per cent. more than the usual daily rate. (b) Press and cable messages, at the ordinary rate.

No telegrams will be transmitted after 10 p.m. on Sundays.

From any station in Queensland to any station in:—

	s. d.	s. d.
New South Wales, exclusive of address and signature	1 0	0 2
Victoria	2 0	0 3
South Australia (excepting line to Port Darwin)	3 0	0 3
Tasmania (only ten words allowed free for address and signature) ..	4 0	0 4
New Zealand (address and signature included in the counting) ..	4 6	0 6
Western Australia (exclusive of address and signature)	4 0	0 4
Western Australia (telegrams marked "Urgent," double rates, which must be prepaid) <i>via</i> Roebuck, address and signature included in counting	12 0	1 1
New Caledonia (address and signature included in the counting) ..	9d.	per word

Press messages within the Colony, intended for publication, are charged the following rates—Not exceeding 24 words, including address and signature, 1s. Each additional 4 words, or portion thereof, 1d. Between any station in Queensland, and any Border Station in New South Wales, are allowed to pass as ordinary messages when the total charge is below the Intercolonial Press rate of 8s.; for example, a Press message of 13 words would be charged 1s. 3d. Between any stations in Queensland and New South Wales are charged as follows:—

Ten (10) words, 1s. Every additional word up to 22, 2d. Over 22 and up to 100 words, 3s. Every additional 50 words, or fraction thereof, 1s. 6d. Between any station in Queensland and any Border Station in New South Wales are allowed to pass as ordinary messages when the total charge is below the Intercolonial Press rate, 3s.; for example, a Press message of 13 words would be charged 1s. 3d. Between any stations in Queensland, Victoria, and South Australia (overland excepted) are charged as follows:—Ten words, 3s. Every additional word up to 16 words, 3d. Over 16 and up to 100 words, 4s. 6d. Every additional 100 words, or fraction thereof, 4s. 6d. Overland Line (Port Darwin) for the first 100 words, 6s. and for every additional 25 words, 1s. 6d. in excess of above rate. Between any stations in Queensland and Western Australia are charged as follows:—Ten words, 4s. Every additional word up to 16 words, 4d.; over 16 and up to 100 words, 6s. Every additional 100 words or fraction thereof, 6s. Between any stations in Queensland and Tasmania are charged as follows:—100 words or under, 6s. 6d. Every additional 50 words or less, 4s. 3d. Press rate to New Zealand is the same as to New South Wales, with 3d. per word cable rate and 6d. for every 100 words or part thereof, New Zealand press rate added. Between any stations in Queensland and New Caledonia are charged as follows (in addition to the Queensland Press rate):—Not exceeding ten words, including address and signature, 8s., and each additional word, 3d., plus 1d. per word New Caledonia land line rate.

REGISTRATION OF BIRTHS, MARRIAGES AND DEATHS.

Every birth must be registered within sixty days, and every death within thirty days next thereafter respectively; any neglect of this regulation renders the parties whose duty it is to register, liable to a fine not exceeding £10. If sixty days have elapsed from the date of birth, the law requires the parent, or other person making the application to register such birth, to pay a fee of two shillings and sixpence, and to make a solemn declaration of the facts before a Justice of the Peace, prior to the registration. The father or mother ought to sign as informant. If unable to write, let a mark be made. No birth can be registered after three years have elapsed from the date thereof; but a record will be made in the Registrar-General's Office, if reliable information be supplied by the parents respecting such a birth.

Every Minister who has celebrated a marriage must, within one month thereafter, transmit (in accordance with the Act 28 Victoria No. 15) the original certificate to the Registrar of the District in which the marriage was celebrated, and every Minister who fails to transmit the certificate to the District Registrar, is liable to a fine of NOT LESS THAN £10 and not exceeding £50. Marriages must be solemnized between the hours of 8 a.m. and 8 p.m. Persons under age must produce the written authority of parents or guardians, signed by them in the presence of a Justice of the Peace, Registered Minister, or District Registrar, or the marriage cannot take place.

In every case of Burial, the Minister or person officiating at any religious service at such burial, ought to receive from the undertaker or person having charge of the funeral, a certificate from the District Registrar, certifying the registration of the death, unless in the case of inquest, when a certificate from the Coroner or Magistrate holding the inquest, will be sufficient; and if any dead body shall be buried without such certificate, the person who may bury the same, or perform any funeral or religious service for the burial, or shall in any way dispose of the body, shall forthwith give notice of the facts to the District Registrar. Undertakers are bound under a penalty not exceeding £10, to lodge with the District Registrar, IMMEDIATELY after the burial, a Certificate of such burial signed by themselves and COUNTERSIGNED BY TWO WITNESSES.

REGISTRY DISTRICTS AND NAMES OF REGISTRARS.

ARAMAC—Peter George Grant, Longreach
BALONNE—Archibald Lee, St. George
BLACKALL—R. T. Taylor, Blackall

Directions for Making a Will.

A WILL should be made in the plainest language possible; it must be written with ink on paper or parchment, and must be signed at the end of each sheet (if there be more than one) by the Testator (the person who makes the Will) in the presence of two or more witnesses.

The Witnesses *must not be in any way beneficially interested in the will*, as in such case any gift or legacy to that witness is void. For example, a son to whom anything is left, or who might benefit under the will, should not witness his father's will; nor should a wife who benefits thereunder, witness her husband's will. The witnesses must strictly comply with every particular required by the Attestation Clause, at the end of which clause they must sign their names.

A witness need not know the contents of the will, as the will may be so folded, that the signature and Attestation Clause alone can be seen.

FORM OF A WILL.

LEAVING EVERYTHING TO A WIFE.

This is the last Will and Testament of me (name) of (address) made this day of One thousand eight hundred and ninety- as follows:—I give, devise, and bequeath all my messuages, lands, tenements, and hereditaments, and all my household furniture, ready money, money secured by life assurance, goods and chattels and all other my real and personal estate and effects whatsoever, unto my dear wife for her own sole and separate use absolutely. And I appoint my said wife executrix of this my Will, and hereby revoke all other Wills.

In witness whereof I have hereunto set my hand this day and year above written.

ATTESTATION CLAUSE.

Signed and acknowledged by the said as and for his last Will and Testament, in the presence of us, who in his presence and at his request, and in the presence of each other, have subscribed our names as witnesses. {

In the event of a person wishing to make some alteration in his Will, it can be done by the addition thereto of what is known as a Codicil.

A CODICIL TO A WILL.

A Codicil is to be made with the same regulations as the Will itself, and may be written thus:—

This is a Codicil to my last Will and Testament, bearing date the day of

19, and which I direct to be taken as part thereof. I give, devise, and bequeath, &c.

As witness my hand this

day of 19.

NOTE.—Obliterations and alterations of any sort in the Will ought, if possible, to be avoided; when they have to be made, each one of them must be signed or initialled by the Testator and witnesses on the margin, or as near to the alteration as possible.

NOTE.—Marriage after making a Will renders the Will void, and necessitates another being made.

If a person wishes to dispose of all his property in one gift, the words, "all my real and personal estate," may be used.

In many cases the death of an executor or unwillingness to act, leads to considerable trouble, which can be altogether avoided by employing the Queensland Trustees, Ltd., to act as Executor and Trustee. The advantages of appointing an institution such as this, having a local directorate and being of good standing, are manifest, independently of the fact that a company never dies like a private executor or trustee. The expenses of the company acting are no greater than those of a private individual. In such case the following form of appointment of the Queensland Trustees, Limited, may be substituted in the above form in lieu of individual persons:—

"I APPOINT the Queensland Trustees, Limited, "executor and trustee of this my Will and I "DECLARE that the said Company by its officers "may execute any of the trusts or powers "therein contained."

QUEENSLAND CUSTOMS TARIFF.

Under "The Customs Duties Act of 1888," "The Customs Duties Act of 1890," "The Customs Duties Act of 1892," "The Customs Duties Act of 1894," and "The Customs Duties Act of 1896." (Revised to November, 1899, by Mr. W. H. Irving, Collector of Customs).

- Chalk
- Chloride of lime
- Christmas cards
- Clothing, old (family portraits and clothing, old)
- Cocoanuts
- Coin—gold, silver, and bronze
- Copper—sheet, plain, ingot, rod, wire
- Copper nails, piping, and wire (thread-covered)
- Copper, perforated, and copper gauze
- Copper, bar and scrap
- Copper-wire rope, Copper tacks, Copper rivets, Copper clouts, and Flemish nails
- Coppers
- Corks, cork, and cork socking
- Corn sacks (jute), to contain 3 bushels
- Cotton wicks, cotton waste, and cotton wool
- Cotton-seed oil
- Cotton and linen thread, sewing, knitting, embroidery, crotchet, crotchet thread, sewing silks and twists.
- Cotton gimp
- Crates returned empty in which Queensland produce has been exported, provided that the number of such articles re-imported by any person or firm is not greater than that exported by them, and are of a similar size and kind.
- Cream separators, Cream testers
- Curiosities, antique.
- Cylinders and tubes containing gas or ammonia
- Diving pumps and dresses
- Diving dress parts, namely:—Helmets, corsets, cup leathers, valves, springs and screws, corset screws, nuts and keys, pump spanners, pipe couplings, face glasses, repairing cloth in solution
- Dredgers and steam tugs to be used in execution of harbour works
- Droppers, Standards and Staples for wire fencing
- Drugs and chemicals, namely:—Acetate of soda, Boracic acid, Benzoic acid, Carbolic acid, Citric acid, Oxalic acid, Phosphoric acid, Pyrogallic acid, Salicylic acid, Sulphurous acid, Tannic acid, Tartaric acid, Albartine, Aloes, Alum, Ammonia, Antitoxin serums, Arsenic, Bisulphide of carbon, Borax, Calumba root, Camphor, Carbolate of lime, Carbonate of potash, Cascara bark, Caustic potash, Chloride of gold and tin, Chloride of lime, Cinchona bark, Collodion, Cream of tartar
- Cyanide of potassium
- Ergot
- Garfield Tea
- Gentian root, Glacialine, Glycerine, Iodine, Ipecacuanha root, Lithofuge, Nitrate of silver, Nut galls, Nux vomica, Pearl ash, Phosphorus, Sulpitret, Senega root
- Silicate of soda, Soda nitrate, Soda sulphate
- Soda caustic, Sulphur, Sulphate of copper or blue stone
- Sulphate of barytes, Sulphate of iron
- Sulphate of ammonia
- Sulphate of magnesia, Sulphate of potash
- Sulphate of quinine
- Sulphide of sodium
- Superphosphate of lime, Strychnine
- Dye
- Elastic
- Electro-plating materials, namely:—Nickel anodes, nickel salts, rouge composition, Tripoli composition, wire scratch brushes, polishing mops, wheels, felt, and leather
- Engine packing
- Engravers' prepared plates or process blocks
- Engravings (works of art)
- Explosives, bellit, roburite, sporting powder, and percussion caps, dynamite gelatine, dynamite, lithofracteur, blasting powder, fuse, detonators, newlanite, and other explosives
- Eyelet punches and eyelets
- Family portraits and clothing (old)
- Felt and felt sheathing
- Fencing wire staples
- Fibre, coconut
- Fire engines
- Fish oil in bulk; fish and game, frozen and fresh
- Fish plates (iron sleepers, &c.)
- Flax
- Flock
- Frames, metal, for bags and satchels
- Fruit, green
- Flowers, cut
- Game, frozen and fresh
- Gardenseeds, bulbs, trees, and shrubs
- Garden and plantation hose
- Gauze, iron
- Gimp, silk or cotton
- Glaziers' tools
- Globes, educational
- Gold, unmanufactured
- Gold leaf
- Graining combs
- Grass yarn or grass rope, twisted

Grindstones
Guano, manure
Gutta percha
Hammers, mining
Hatmakers' materials, namely:—Felt hoods, shellac, galloons, spale-boards for hat-boxes, black silk plush, cap-peaks, straps and hat leathers, cork tips and sides, corrugated cork and vents

Heel wire

Heirlooms, which have been in use and which have been left by will to, or inherited by, the importer, provided that such articles are not imported for sale, and that the intrinsic value thereof does not exceed 75 per centum of the value of new articles of a similar description

Hemp; hemp yarn (jute and hemp yarn)

Hessian

Hides, raw

Hoe cultivator, drill wheel

Hooks and eyes

Hoops, wooden, for casks

Hose, india-rubber and canvas

Hydraulic lifts

India-rubber

India-rubber insertion, India-rubber in solution

Infusorial earth

Ink, ruling

Ink, printing

Insulating materials

Iron ore; Iron, plain sheet (not including galvanised); Iron, pig; Iron, bar; Iron, rod—from 3/16ths to 1/2 inch; channel iron, angle and tee iron, rolled iron joists up to 10 inches by 5 inches; Iron, scrap; Iron, hoop, iron sleepers, fish plates, points and crossings, switch-box for portable railways and clutch bolts; iron, sheet, chequered and gauze; iron pipes, cast; iron piping, malleable (malleable iron piping); iron and steel traps

Ivory

Jewellers' tools—bellows, broachers or rimers, burnishers, doming punches and dies, draw-plates; drawtongs, bench and hand; emery wheels; felt, wool, leather polishing wheels; furnace bodies, gauges, gravers and scoopers, ingot moulds, mallets, nippers, plyers, polishing lathe heads, polishing lathes, saw-frames, screwdrivers, triblets for rings, tweezers, watch and clock brushes

Jute; jute yarn and hemp yarn

Kapock

Lead, pig

Leather—patent, enamelled, kid, hogskins, levant, morocco and imitations thereof; grained, Russia, chamois, chrome, and glazed

Linotype metal

Linseed

Liquid stain for leather

Lithographic stones, lithographic ink and colours

Live Animals

Locomotives under ten inch cylinders

Machinery of the following descriptions, not including engines and boilers—Flour-milling; Bookbinding and ruling machines; Yarn evaporators; Canning machines; Steam-threshing machinery

Machinery for carding, spinning, weaving, and finishing the manufacture of fibrous material, and cards for such machinery

Machinery used in the manufacture of paper and felting

Machinery—Centrifugals, multiple effects; dry air (for refrigerating), without engine; freezing machines, not including engine power; gas engines, portable engines, sewing machines, traction engines and steam ploughs, tubing for artesian wells

Machines, namely:—Planing machines and machines for joinery, hot air machinery for drying timber, hydraulic hat moulds, knitting machines, printing machines and presses, but not the motive power (if any) for same

Machinery for telegraphic purposes

Machines and machinery, not including boilers and engines, namely:—American band-saw frames, bag-folding, bark-cutting; biscuit, for cutting and stamping designs; bone crushing, bootmaking, bottle washing, brick and tile making; burring, used by fell-mongers; burring, used in woollen factories; button fastening, button-making, cash registering and numbering, cloth cutting, condensers, corrugated iron curving, darning, drilling, drying (Cummer style), electric and fittings, electrotyping, embossing, engine governors, eyelet, felting, flock making, fret saw, fruit paring, fruit preserving, honeycomb making, horse clippers, label cutting, lathes, manure, mincing, oil expressing, patent brakes for locomotives and motors, pill making, plate bending, platform weighbridges, printers' and bookbinders', punching, punching and flaring hoops, rice dressing & cleaning, rubber stamp making, ruling, shaping, shearing for iron; sheep shearing, and all parts thereof; slotting, soda water, steam hammers; stone breakers; stone grinding (for printers), tin-smiths, tobacco cutting, twine balling; washing and scouring, for manufacture of blankets and rugs; washing and wringing, all kinds, wire net making, woodworkers', boring

Mining machinery, namely:—Air compressors, ball mills for crushing quartz, rock drills roller mills for crushing quartz, steel rings for quartz mills, screens and gratings, vanners

Machinery, patent porcelain or steel roller for flour mills

Machines and machinery, and parts thereof, required for mining purposes, agricultural, pastoral, or other purposes, which are not specified, and are of new invention, and of a description not heretofore made in Queensland, as may be exempted from time to time by the Governor in Council, and published in the *Gazette*

Machine belting, not leather

Magie lanterns and slides

Malleable iron piping

Manure, guano

Maps, charts, and globes

Marble, unwrought

Materials, for scientific purposes, of china, earthenware, and porcelain

Metal fittings for portmanteaus, travelling bags, and leggings

Metal frames for bags and satchels

Metal tubing, except tin, zinc welded, and lead

Mill board

Millet straw

Mould boards and shears, steel for ploughs and steel beams

Mill stones

- Mill silk
 Muntz metal
 Music
 Myrabolans, unground
 Naval and military stores imported for the service of the Colonial Governments, or for the use of Her Majesty's land or sea forces
 Newspapers, printed
 Oakum
 Oars
 Oil, fish, in bulk
 Oil of rhodium
 Oil engines and fittings which can be only used for oil engines
 Opticians' materials:—Optical tools, lenses (rough-edged), spectacle and eye-glass frames, empty, and repairing parts, spectacle and eye-glass cases, empty
 Ores
 Outside packages, in which goods are ordinarily imported, and which are of no commercial value except as covering for goods
 Packages returned empty in which Queensland produce has been exported, namely:—Crates, bales and bags, provided that the number of such articles re-imported by any person or firm is not greater than that exported by them, and are of similar size and kind
 Paint brushes
 Paintings (works of art)
 Paper patterns
 Paper, hand-made or machine-made, book or writing, of sizes not less than the size known as "demy," when in original wrappers, and with uncut edges as it leaves the mill
 Paper, printing
 Pallet knives
 Passengers' cabin furniture and baggage, and passengers' personal effects (not including vehicles, musical instruments, glassware, chinaware, silver and gold plate and plated goods, and furniture other than cabin furniture), which are imported with and by passengers *bond fide* for their own personal use and not imported for the purpose of sale
 Paste boards
 Patent porcelain or steel roller for flour mills
 Patent brakes for locomotives and motors
 Pegs, shoe, and pegs, wood
 Persons coming to reside permanently in Queensland may import with them their furniture and effects which have been in use, and are not imported for sale, up to the value of one hundred pounds (£100) duty free
Phormium tenax
 Phosphorized pollard and distributing carts for same
 Photographic materials—Cameras, sensitised plates, lenses and mounts
 Picture cards for schools
 Plated nails
 Plough chains
 Pottery materials, namely:—Potters' lead, Paris white, ground body manganese, oxides of chrome, copper, zinc, tin, black cobalt and uranium; suboxide of copper, carbonate of iron, bichromate of potash, white fluor-spar, ball clay, and Brandon mineral paint, ground flint, Cornish stone, china clay, ground glass, felspar, granite shavings, glaze for porcelain or china
 Powder, blasting and sporting
 Preservitas
 Precious stones, unset
 Pumps
 Quicksilver
 Rattans, canes and willows
 Regalia for Friendly Societies
 Resin
 Reaper and binder—combined, strippers
 Saddlers' tools
 Saddlers' ironmongery, such as hames, and mounts for harness, straining, surcingle, brace, girth, and roller webs; collar check; saddle serge
 Saddle-trees, saddle binding
 Safety matches
 Salt
 Saws of all kinds but not the machinery (if any) connected therewith
 Scientific instruments, being metal or glass-ware
 Scrap iron
 Seaming twine
 Sewing machines
 Sheep dip, sheep lick
 Shoe pegs, pegs, wood
 Shoemakers' nails, viz. — Sparrow-bills wrought and cast tips, bright and black malleable hobs, wrought hobs, nuggets, Hungarian cut sprigs, steel bills, tingles, iron and brass rivets
 Shot
 Silk gimp
 Silver—bar, ingot, and sheet
 Silver, unmanufactured
 Silver leaf
 Skins, raw
 Slates (school), slate pencils
 Soda-ash
 Sizeoline and hydra size
 Soap colourings
 Specimens of natural history
 Split wood staves
 Staymakers' binding, eyelet-holes, corset fasteners, jean, lasting, and cotell
 Staples for wire fencing, droppers and standards
 Steel wheels and axles
 Steel wire
 Steel wire rope, steel rails
 Starch, manufactured in bond from imported rice, under such restrictions and regulations as the Treasurer may impose
 Steel—unwrought, sheet, bar, angle, and tee
 Straw, mill, and paste boards
 Straw, millet
 Straw plaits, palm-leaf plaits, Tuscan plaits
 Surgical and dental appliances and instruments, namely:—Aspirators, atomizers (or surgical purposes only, bandages, basins (pus), batteries, galvanic belts, surgical binders, bistouries, bottles, injection bougies, brushes (throat), catheters, chairs (dental, complete), chairs (operating, surgical), dilators, elevators, bed-clothes, enemas exhausters, breast forceps, head-rests (dental), inhalers, injectors, instruments, namely:—Amputation, cupping, dissecting ear, eye, midwifery, tooth, uterine, and veterinary, instruments and engines used in dental operations; lancets, lamps (used solely for surgical or dental purposes) laryngoscopes, pessaries, probes, protectors (chest), pumps (stomach), specula, splints, stethoscopes, stockings (elastic, silk), suspenders, syringes, trocars, trusses, tubes, and urinometers

Tailors' trimmings, namely:—French canvas, buckram, wadding, padding; silk worsted, and cotton bindings and braids; stay-binding

Tar, Stockholm

Thimbles (ship's gear)

Timber, ash, in plank

Tinfoil

Tin plates

Tools, namely:—Grindery tools, edge planes, kit, peg, shaves, and welt-trimmers; Adzes, anvils, augers, screw and shell and auger bits; Awls, awl pads, and hatts; Axes, hatchets, tomahawks; Bevels, blowpipes; Braces and bits, and breast drills; Bruzzes for wheelwrights; Bung borers; Brushes, patent roller for blockmaking; Chisels and gouges; Choppers and cleavers—butchers'; Compasses, dividers; Compasses—carpenters' and coopers'; Diamonds—glaziers'; Files and rasps; Forks—digging, hay, and stable; Hoes, garden, plantation; Knives—butchers', hay, pruning, putty, saddlers', shoemakers', cane; Needles of all sorts; Palms, leather; Planes and plane irons; Rules, tapes, and chains—measuring; Saws of all kinds, but not the machinery (if any) connected therewith; Scissors, scrapers (ship); Screws—bench, brass, coach, galvanised, hand, table, wood; Scythes and scythe-handles; Shears—garden, hedge, sheep, tailors', timmen's; Shovels—iron or wood; Sickles, spades; Spokeshaves, shaves and spoke-trimmers; Squares; Squeezers, cork; Steels, butchers'; Stocks and dies, and taps for same; Saddlers' tools, namely:—Rein rounders, claw, carving, French edge, patent leather tools, wheels, rosette cutters; Trowels; Vices, and patent saw-vices.

Tools—Hammers (mining), picks (mining) Trace and plough chains, and iron hames

Traps, iron and steel

Tubing for artesian wells

Twine, for net-making, only when imported by net-makers

Type, typewriters

Umbrella-makers' materials, namely:—Sticks, runners, notches, caps, ferrules, cups, ribs, stretchers, tips, and rings, for use in the making of umbrellas, parasols, and sunshades; reversible and Levantine silk mixtures, of not less than 44 inches in width

Valonia, unground

Weighbridges, platform

Whalebone

Wheels and axles, steel

Wire, iron—plain, barbed, and galvanised

Wire, steel

Wire, heel

Wire netting; wire, bottling

Wooden backs for brushes

Wooden hoops for casks

Wool-bagging

Wool, unmanufactured

Wool packs

Works of art, namely:—Paintings, engravings, and statuary

Yarn—Russian, Italian and coir, jute and hemp

Zinc

Articles and materials (as may from time to time be specified by the Treasurer) which are suited only for, and are to be used and applied solely in, the fabrication of goods within the colony. All decisions of the Treasurer in reference to articles so admitted free to be published from time to time in the *Government Gazette*.

AD VALOREM DUTIES.

For every £100 of the value thereof, a duty of £5.

Alpaca cloth, with border
Cotton piece goods
Crimean flannel, in the piece
Furniture springs
Linen piece goods

Moleskin, in the piece
Paper, except otherwise enumerated
Tailors' trimmings:—Italians
Union ticks, in the piece
Zanella cloth, with border

For every £100 of the value thereof, a duty of £15.

Bags and sacks, being bran, corn sacks (except jute corn sacks to contain 3 bushels, free, 31st March, 1897), flour, gunny, ore, sugar bags and mats

Bicycles and tricycles

Boot cloth

Burnishing ink

Carriage-makers' materials, viz.:—Carriage springs, carriage trimmings, carriage cloth in the piece

Casks, and staves and heads imported in shooks

Castors for furniture

Cigarette papers

Cocoa-beans, raw

Cotton, raw

Cutlery

Curled hair

Drapery and Millinery, viz.:—Bonnet shapes; Cotton blind nets; Cords—cotton, linen; Worsteds—in hanks, coils and reels

Piece goods, viz.:—Baize; Bedford cord; Cloths; Dress Goods; Flannel; Linseys; Mosquito nets and valance nets; Ribbons; Berges and estamenes; Silks; Trimmings

(mantle and dress, in the piece); Tweeds; Velvets and velveteens; Woollens: Wool (Berlin and knitting); Carpeting, druggeting, floorcloth, oilcloth (in the piece); Lace (cotton and silk)

Straw hats and bonnets (untrimmed and unlined; paper and glazed calico not to be considered lining)

Gilt mouldings for pictures

Glass stoppers for soda-water bottles

Glass, window and plate

Hair-seating for furniture

Ironmongery and hardware, viz.:—Door-knobs—glass, brass, and china; emery cloth, emery paper, emery powder; hammers, except mining; hinges, except otherwise enumerated; holystones; irons—hatters', Italian, smoothing, and tailors'; latches, locks, mortice furniture, all kinds; patent door springs, pencils—carpenters', sash-fasteners, tinned rivets, weighing machines of all kinds (except platform weighbridges), and weights for same

Isinglass

QUEENSLAND CUSTOMS TARIFF—Continued.

Lamp chimneys and globes
Lemon peel in brine
Ostrich feathers, raw
Paperhangings
Pens

Saddlers' materials, viz.:— Saddle-cloths and
saddle-girths made up
Sponge
Stone, unwrought
Watches, clocks, and all parts thereof
Window and plate glass

Upon all goods, wares, and merchandise, imported into Queensland other than those mentioned in the foregoing schedules, for every £100 of the value thereof, a duty of £25

STAMP DUTIES.

Under "The Stamp Duties Act of 1894."

[CAME INTO OPERATION, NOVEMBER 1, 1894.]

NOTE.—All Stamp Duties must be denoted by IMPRESSED STAMPS except the following for which ADHESIVE STAMPS can be used:—Agreement under hand; Bills of Exchange payable on demand or at sight; Bills of Exchange and Promissory Notes drawn or made out of Queensland; Bank Draft payable outside Queensland when issued from a locality where there is no stamp office; Charter Party; Drafts from outside the colony received by a bank for acceptance and payment within the colony; Policies of Insurance; Receipts or discharges for the payment of money; Transfers of shares or stocks; All documents requiring to be registered at the office of a Clerk of Petty Sessions, Warden, Mineral Land Commissioner, or Mining Registrar.

	£ s. d.		£ s. d.

RELEASE or RENUNCIATION of any property, or any right or interest in any property— Upon a sale, <i>see</i> Conveyance on Sale. By way of security, <i>see</i> Mortgage, Bond, and Covenant. In any other case	0 10 0	
REQUEST for the registration or the entering of any instrument under the provisions of the Real Property Acts not otherwise stamped	0 2 6	
SETTLEMENT —Any instrument whether voluntary or upon any good or valuable consideration other than a <i>bonâ fide</i> pecuniary consideration, whereby any definite and certain principal sum of money (whether charged or chargeable on lands or other hereditaments or not, or to be laid out in the purchase of lands or other hereditaments or not), or any definite and certain amount of stock or any security is settled or agreed to be settled in any manner whatsoever— For every £100, and also for any fractional part of £100 of the amount or value of the property settled or agreed to be settled	0 5 0	
Exemption. —Instrument of appointment relating to any property in favour of persons specially named or described as the objects of a power of appointment where duty has been duly paid in respect of the same property upon the settlement creating the power, or the grant of representation of any will or testamentary instrument creating the power.		
TRANSFER of any run or station held under lease or promise of lease or license from the Crown, or of any interest therein, where the declared value of such property or interest, or the value thereof assessed as in this Act provided, shall not exceed £100 And where such value shall exceed £100, then for every £100 and any fractional part of £100	0 10 0 0 10 0	
Exemption. —Any transfer from the mortgagee to the mortgagor of any run or station held under lease or promise of lease or license from the Crown, or of any interest therein.		

DIVIDEND DUTY.

For and in respect of all dividends declared or ascertained by, or becoming due from, any Company (except Companies carrying on insurance business only) having its Head Office or Chief place of business in Queensland, for every Twenty Shillings of the amount of such dividend the sum of One Shilling and a proportionate sum for any part of such Twenty Shillings.

In the case of Companies, not having their Head Office or Chief place of business in Queensland (and not being insurance companies), the same duty shall be paid on so much of the total dividends declared by the Company during the year, as is proportionate to the average amount of capital employed in Queensland during the year, as compared with the total average capital of the Company during the year.

In the case of Mining Companies, the first and subsequent dividends shall be taken to be applied in repayment of the cost actually incurred by the Company before the declaration of the first dividend in respect of labour or material employed in developing the mine; and in the second place, in repayment of three-fourths of the cost of any machinery erected for raising ores and other materials from the mine.

Every Company carrying on life, fire, fidelity guarantee, or marine insurance business, a sum equal to Twenty Shillings for every One hundred pounds or part of One hundred pounds on the amount of the gross premiums received (excluding any portion actually paid away by way of re-insurance effected in Queensland with any other Company) during the year ending December 31.

TOTALISATOR TAX.

On all moneys received by the conductor of any authorised Totalisator by way of stakes, wagers, or bets, or agreed to be paid by him, for every 20s., Sixpence

SUCCESSION DUTIES.

Where the whole amount passing by death to any person amounts to less than £200	No duty.	To the wife or husband or children of the deceased, one-half of the foregoing rates.
£200 and less than £1000	2 per cent.	
1000 " " 2500	3 " "	
2500 " " 5000	4 " "	
5000 " " 10,000	6 " "	
10,000 " " 20,000	8 " "	
20,000 and upwards	10 " "	

(Under the "Amendment Act of 1895.")

Where a man dies intestate leaving a widow but no issue, and no mother who is a widow surviving him, where net value of his real and personal property shall not exceed £500, it shall belong to his widow absolutely and exclusively.

Where the legatee is a stranger in blood to the deceased or a charitable institution, double the above rates.

Any succession which in the whole is of less value than £200 is exempt from duty.

Where the value exceeds £500, widow is entitled to £500 in addition and without prejudice to her interest and share in the residue of the property.

PASSENGERS.

GENERAL INFORMATION

Children under three years of age, "free;" over three and under twelve, half-fares.

Passengers starting from any station at which tickets are issued must, before entering a railway carriage, provide themselves with proper tickets; if they are unable to produce proper tickets on demand, they will be liable to pay the fare from the station whence the train started.

Single tickets for 50 miles and under are available for day of issue only; over 50 miles and

under 150 miles are available for 7 days; over 150 miles are available for 14 days.

Return tickets between all stations are available as follows:—10 miles and under, day of issue only; 11 miles to 50 miles, 2 weeks; 51 miles to 150 miles, 1 month; 151 miles to 300 miles, 3 months; over 300 miles, 6 months, exclusive of the day of issue; but the forward journey must be commenced on date of issue, and completed within the period for which a single ticket is available.

Passengers holding return tickets for any distance are allowed to break their journey at any station, provided the journey is completed within the period for which the tickets are available.

Any passenger desirous of breaking his journey must deposit the ticket with the stationmaster at each station where the journey is broken, the ticket being returned to the passenger on resuming the journey (a receipt for the ticket will be given by the stationmaster if required).

Quarterly, half-yearly, and yearly metal tickets are issued to adults, available between Brisbane and any station. Metal tickets are issued only on January 1, April 1, July 1, and October 1. Gold tickets are issued only for one year.

Season tickets (for periods of not less than three months) will be issued at two-thirds of the full season ticket rates, to youths and females under twenty years of age who are earning under £65 per annum. Properly signed declaration form, countersigned by employer, is required to obtain this concession.

Scholars' season tickets are issued to pupils attending any school at half season ticket rates.

Scholars under 16 residing where there is no public school within two miles of their homes, will be granted free second-class season tickets to enable them to attend the nearest public school to which the train service is available.

Return tickets at half single fare for scholars under 16, and full single fares for scholars 16 years of age and over, will be issued between stations 10 miles and over apart during school vacations to scholars attending any school, on application to the stationmasters on a proper printed form which must bear the certificate of the principal of the school at which the scholar applying attends. Return tickets will also be issued during vacations to students attending any university or school—Under 16 years of age, half single fares; 16 years of age and over, half return fares, on production of duly signed certificates.

Return tickets at half fares (minimum 6d. first-class and 3d. second-class), will be issued to students and teachers of technical colleges on being duly applied for.

For school excursions, in parties of not less than 50 scholars, half single fare, irrespective of age of scholars; adults, single fares for the double journey. Minimum, 6d. for each adult and 3d. for each scholar.

Return tickets at single fares between stations 10 miles and over apart will be issued to teachers of recognised day schools during school vacations, on application to stationmasters on the proper printed form duly certified.

First-class Season Tickets will be issued to Registered Ministers of Religion between any given points, available for either three, six, or twelve months, at reduced rates, on application

to the Railway Commissioner, or nearest Traffic Manager.

First-class Yearly Season Tickets will be issued to commercial travellers (upon application of an employer), at special rates according to distance: 100 miles and under, £15; above 100 miles at a specified rate per mile according to distance. Second-class yearly commercial travellers' tickets may be issued at two-thirds of the full first-class fares. Tickets issued to commercial travellers may be transferred (in the case of a traveller leaving his employers) to his successor on the application of the employer, and payment of 10s. registration fee, when a fresh ticket will be issued, available for the remainder of the term. Yearly Season Tickets under similar conditions are issued also to insurance agents.

Theatrical companies travelling between stations in Queensland or to stations in the other colonies to which through fares are in operation, and consisting of not less than six passengers journeying not less than 20 miles, may on application to the Traffic Manager be allowed first-class tickets on payment of second-class fares, or second-class tickets for 20 per cent. less than ordinary second-class fares. The following weight of luggage will be conveyed free of charge:—For each first-class passenger, 2 cwt.; for each second-class passenger, 1 cwt. Excess luggage to be charged parcels rates. Advance agents must pay ordinary fares in the first instance, but the Station Master may allow the concession for their tickets by way of refund if not less than six tickets are afterwards purchased for the company they represent.

Members of cricket, football, golf, lacrosse, lawn tennis, or other approved athletic teams or clubs, when travelling between stations in Queensland or to stations in the other colonies to which through fares are in operation, and journeying not less than 20 miles, and not more than 100 miles, in parties of six or more, may be allowed return tickets at single fares. When the distance exceeds 100 miles return tickets at half return fares may be issued, but the half fare must not be less than ten shillings. Applications for these concessions must be made to the Traffic Manager.

Season Tickets at one-fourth ordinary rates will be issued to the reporting staff of any newspaper published in the colony, available for use by any one reporter whose name has been previously submitted and approved of by the Commissioner. This ticket only to be used when the reporter is travelling on press business.

A special return ticket at half the ordinary fare will be issued to any press representative or reporter permanently employed on a newspaper requiring to travel on press business.

Accredited delegates travelling between stations in Queensland or to stations in the other colonies to which through fares are in operation, and consisting of six or more passengers in number, journeying not less than 25 miles, to attend church or other approved conferences, may, on application to the Traffic Manager, and on presentation of certificates from the secretary to the conference, be allowed return tickets at single fares for themselves and their wives (if accompanying their husbands).

Pleasure parties comprising not less than six first-class or ten second-class passengers tra-

velling not less than 10 miles each way can obtain return tickets at a single fare and a quarter; if the parties travel not less than 24 miles each way, and number not less than twenty first-class or thirty second-class, return tickets at single fares.

Weekly second-class tickets for any distance up to and including 15 miles are issued to workmen requiring to travel between stations in the suburban area. They are available on week days only for one journey each way per day by trains departing between the hours of 6 and 8 a.m., and for return up to 7 p.m., at the following rates:—1 mile, 9d.; 2 and 3 miles, 1s.; 4 miles, 1s. 6d.; 5 miles, 2s.; 6 and 7 miles, 2s. 6d.; 8 miles, 2s. 9d.; 9 miles, 3s.; 10 miles, 3s. 3d.; 11 and 12 miles, 3s. 6d.; 13 miles, 3s. 9d.; 14 miles, 4s.; 15 miles, 4s. 3d.

PASSENGERS' LUGGAGE.—First-class passengers will be allowed free conveyance for 112lbs. of personal luggage; and second-class passengers 84lbs. Any excess of these quantities will be charged at parcel rates if carried by passenger train.

Bicycles, accompanied by their owners, are charged as follows:—13 miles and under, 6d. 14 to 25 miles, 1s.; 26 to 50 miles, 1s. 6d.; 51 to 75 miles, 2s.; 76 to 101 miles, 2s. 6d.; and 6d. for every additional 50 miles or part.

RESERVED CARRIAGES.—When compartments are reserved for any person or persons the fare will be as follows:—Saloon compartments, ten first-class fares; small compartments, four first-class fares.

SPECIAL TRAINS.—The charge for a special train will be:—For any distance, 5s. per mile; minimum charge, £5. All passengers to take tickets in addition at ordinary rates. For the return journey the charge will be half the above rates and fares, and one-half the mileage rate. No special will be run on Sundays except in cases of extreme urgency, and on payment of 25 per cent. extra.

CLOAK ROOM CHARGES.

Parcels and the personal luggage of any passenger by railway may, for convenience, be deposited in the cloak room of a railway station, but the Commissioner is not liable in the respect of the loss of any parcel or luggage, for any claim in excess of the sum of ten pounds.

Each parcel under 56lbs., 2d. for 24 hours; 56lbs. and under 112lbs., 3d.; 112lbs. and under 224lbs., 4d. Additional charge for parcels left beyond 24 hours. On leaving a parcel a ticket will be given. These tickets are in duplicate, parts, one to be affixed to the package, the other being retained by the owner and presented at the cloak room when delivery is applied for.

PARCELS, GOODS, AND LIVE STOCK RATES.

Adhesive Parcel Stamps, similar to postage stamps, will be issued at the office of the Commissioner for Railways, Brisbane, and at all principal railway stations, for parcels not exceeding 56lbs. in weight. All stamped parcels (except stamped newspaper parcels) must be booked.

All parcels, to admit of their being booked, must be at the station fifteen minutes before the advertised time of departure of the train by which they are required to be forwarded.

The Commissioner will not be liable for the loss of, nor injury to, any parcel which is not

booked, or where the value exceeds £10, unless at the time of sending the value and nature of the parcel is declared, and a special risk rate paid.

Tricycles, perambulators, birds in cages, hat and bonnet boxes, and cases of millinery will be charged at double rates.

Newspaper parcels will be carried at half parcel rates, but not more in any case than 1d. per pound irrespective of distance, with a minimum charge of 1d. per parcel.

Packages of game, fresh meat, corned beef, butcher's small goods, fresh fruit, vegetables, ice and bread will be carried at owner's risk only, at half parcel rates, minimum charge, 3d. Carriage of all perishable articles must be prepaid.

Fresh fish and oysters will be charged half parcel rates, and will be carried at owner's risk only, provided that the half parcel rates are not higher than B class goods rate. Carriage to be prepaid. Minimum charge, 3d.

Packed Parcels—that is, parcels addressed to separate consignees, and enclosed in one, are charged quadruple rates.

Parcels arriving at Brisbane, Roma street, Brunswick street, South Brisbane, Ipswich, Toowoomba, Maryborough, and Bundaberg by passenger train are (unless the sender instructs to the contrary) delivered at the consignee's address at an additional charge for—within three miles of the railway station—28lbs. and under, 3d.; 29lbs. to 56lbs., 6d.; 57lbs. to 112lbs., 9d.; and 3d. for every 28lbs. or part over 112lbs.

Books to or from Circulating Libraries or Schools of Arts and Subscribers, are charged half parcel rates.

PARCELS RATES.

COMMERCIAL TRAVELLERS' SAMPLES will be conveyed by passenger train at parcel rates on

the forward journey, and half parcel rates on the return journey, provided there is room in the brake van, and that the train will not be delayed thereby. The samples must be marked Travellers' Samples, with the name or initials of the person or firm whom the traveller represents. 168lbs. for a first-class passenger, and 112lbs. for a second-class passenger, including personal luggage, will be carried free.

HORSE, CARRIAGE, AND DOG RATES.

The Commissioner will not be responsible for any loss or damage whatsoever that may be sustained by these while upon railway premises or waggons, unless such loss or damage has been occasioned by neglect on the part of railway employees, and then only to the extent of £25 on any horse.

RACEHORSES.—Ordinary rates are charged for racehorses to places where *bona fide* race meetings are held, and if unsold and returned within a month after the meeting they will be carried free on the return journey. Certificates on the prescribed form must be handed to the stationmaster at the time the horses are returned.

Grooms or jockeys accompanying racehorses, and travelling in horse-boxes, will be charged second-class fares.

HORSES IN HORSE-BOXES.—One horse, 4d. per mile up to 200 miles; and 3d. per mile above 200 added to the charge for 200 miles. Minimum charge, 5s. Two horses belonging to the same owner in same horse-box, 3d. per mile up to 200 miles, and 2d. each per mile above 200 added to the 200 miles charge. Minimum charge, 7s. 6d. Entirets will be charged the same as two horses; but the owner will have the privilege of loading another horse belonging to himself in the same box, at his own risk, without extra charge. A mare and foal at foot will be charged 25 per cent. more than the rate for one horse.

DOGS AND OTHER SMALL ANIMALS will be carried in dog-boxes or guard's brake van only, and should be provided with chains or other sufficient means to secure them. The Commissioner, however, will not be responsible for their safety: 10 miles and under, 3d.; 11 to 20 miles, 6d.; 21 to 40 miles, 9d.; 41 to 80 miles, 1s. 6d.; 81 to 100 miles, 2s.; 101 to 130 miles, 2s. 6d.; 131 to 150 miles, 3s.; 151 to 200 miles, 4s.; 201 to 250 miles, 5s.; 251 to 300 miles, 6s.; and 6d. for each additional 50 miles or part thereof.

CARRIAGES.—Fivepence per mile for the first 100 miles; 101 to 200 miles, 4d. per mile added to the 100 mile amount; 201 to 300 miles, 3d. per mile added to the 200 mile amount, over 300 miles, 2d. per mile added to the 300 mile amount. Minimum charge, 10s.

LIVE STOCK RATES.

All live stock to be loaded and unloaded by senders and consignees respectively, and carried at owner's risk.

HORSES, CATTLE, AND CALVES.—The minimum charge for 10 miles and under is as follows:—Half 4-wheel waggon (3 head and under), 8s. 6d.; 4-wheel waggon, 5s. (on Northern railway, 6s. 6d.); 6-wheel waggon, 7s. 6d.; 8-wheel waggon, 10s.; small 8-wheel waggon, Northern railway, 7s. 6d. Beyond 10 miles a specific rate for each mile carried.

SHEEP, GOATS, AND PIGS.—The minimum charge for 10 miles and under is:—Half 4-wheel van, 5s.; 4-wheel van, 7s. (on Central railway, 8s. 6d.), (on Central railway, two-thirds of the rate for a whole 4-wheeled van); 6-wheel van, 13s. 6d.; 8-wheel van, 16s. 6d.; small 8-wheel van, Northern railway, 14s.; 50 miles, half 4-wheel van, 14s. 6d.; 4-wheel van, 22s.; (on Central railway, 26s.); 6-wheel van, 42s. 100 miles, half 4-wheel van, 27s.; 4-wheel van, 41s. (on Central railway, 48s. 6d.); 6-wheel van, 77s. 6d.; longer distances at proportionate rates.

Calves, pigs, goats, or sheep in crates, cases, sacks, or otherwise secured, will be charged at first-class rates. Small calves at foot will be carried free.

Store sheep and cattle which are required to travel for grass or water, will be conveyed when convenient, by special arrangement, at a reduction of one-third less than the ordinary rates.

A return second-class free pass will be issued to drover or drovers accompanying live stock on the basis of one pass to each 50 head of horses or cattle, or 500 sheep, on condition that they attend to the same during carriage. Such pass will include a dog for each drover.

MINIMUM CHARGE FOR SMALL CONSIGNMENTS.

The minimum charge in respect of the carriage of small consignments of goods (except dangerous goods), shall be as follows for each consignment, that is to say:—

Distance.	1st Class Goods.			2nd Class Goods.			3rd Class Goods.		
	56 lb. and under	57 to 84 lb.	85 to 112 lb.	56 lb. and under	57 to 84 lb.	85 to 112 lb.	56 lb. and under	57 to 84 lb.	85 to 112 lb.

GOODS RATES.

Goods are charged at schedule rates per mile, according to the following classification:—Mineral Class; Special and Agricultural, A and B Classes; Merchandise Classes, 1, 2, and 3.

The Minimum rates per ton, for 10 miles and under are as follows:—

Merchandise, first-class, 5s.; second class, 6s. 8d.; third class, 8s. 4d. Mineral class, 1s. 9d. Special and Agricultural Classes: A class, 2s 6d.; B class, 8s.

MILK RATES.—25 miles and under, 1d. per gallon; 26 miles to 50 miles, 3d. per gallon; 51 miles to 100 miles, 1d. per gallon (minimum charge, 3d.). Cream rates: 25 miles and under, 1d. per gallon; 26 to 50 miles, 1 1/4d. per gallon; 51 to 100 miles, 1 1/4d. per gallon; 101 to 200 miles, 2d. per gallon; over 200 miles, 2 1/4d. per gallon; minimum charge, 3d. Empty milk and cream cans will be returned free.

WOOL.

The Commissioner will, unless otherwise instructed, deliver all wool within the Municipalities of North Brisbane (Kangaroo Point Ward excepted), South Brisbane, Rockhampton, and Townsville, on the days and during the hours within which goods warehouses are open. The charge for the delivery of wool by drays shall be 1s. per ton in addition to the railway rate.

Rates per ton for clean wool between the following places and Brisbane: Yeulba, £4 16s. 10d.; Blythedale, £5 0s. 8d.; Roma, £5 1s. 6d.; Hodgson, £5 2s. 5d.; Muckadilla, £5 3s. 8d.; Amby, £5 4s. 9d.; Mitchell, £5 6s.; Mungallala, £5 8s. 5d.; Morven, £5 10s. 7d.; Charleville, £5 15s. 3d.; Wyandra, £6 0s. 4d.; Cunnamulla, £6 6s.

An allowance is made on these rates for clean dumped, greasy, and greasy dumped wool.

LOADING AND UNLOADING, GATES AND SIDINGS.

Goods will not be received for delivery at platforms, sidings, etc., except by special agreement, senders taking all risks of loss or damage and pre-paying carriage, and signing a special consignment note accordingly.

TIMBER (squared or in log).

All timber to be loaded and unloaded by owner. Minimum charge as for the following weights per 4-wheel truck:—Pine, cedar, silky oak, sassafras, ballygum, white bark, cudgere, and silkwood, 2 1/2 tons; all other timber, 4 tons; in trucks under 25 1/2 ft. (except 4-wheeled trucks), pine, cedar, silky oak, ballygum, &c., 4 tons, other timber 6 tons; trucks of 25 1/2 ft. and over, pine, cedar, silky oak, ballygum, &c. 5 tons, other timber 7 tons.

Timber of unusual length requiring guard trucks will be charged additional rates.

Rates for carriage of timber in logs shall be according to measured weight as follows:—

Pine, cedar, silky oak, sassafras, ballygum, white bark, cudgere, and silkwood, 50 cubic feet to the ton; all other timber, 80 cubic feet to the ton.

BARCALDINE.

An important and rising town on the Central Railway, situated 358 miles W. of Rockhampton. Water supply from two artesian bores, the Government one yielding 175,000 gallons per day, and the one belonging to the Divisional Board gives 1,000,000 gallons daily; the latter supplies the town with excellent tasteless water, and troughs are supplied for travelling stock. A number of selectors are experimenting in agriculture, especially wheat growing, which gives evidence of being a great success. Barcaldine is surrounded by sheep stations. The Divisional Board has received authority by vote of ratepayers to borrow £1000 for a second bore. Population, about 2000; district, 4529 (census 1891).

POLICE MAGISTRATE (acting), Clerk of Petty Sessions, Registrar, Assistant Land Agent, High Bailiff and District Receiver in Insolvency—Frederick Vaughan. District Court Bailiff—H. A. Vere.

—o—

MACKAY.

This important centre of the sugar industry of Queensland is situated on the south bank of the Pioneer River, about a mile from the mouth of the river, where it debouches into the Pacific Ocean near Flat-top Island. The town and district are entirely flat, and at present carry a population of 15,000, about 3000 of whom are coloured. The staple industry with which the whole population is connected is that of sugar growing and manufacture, though coffee-growing has now been commenced on a substantial scale, and bids fair to become one of the most important industries of the district. The town is very open, the streets being throughout a chain and a-half wide. The town for municipal purposes is divided into three wards, each returning three aldermen, presided over by a Mayor. The town and district are one electorate, and return two members to the Legislative Assembly. The town is connected with the north bank of the river by a substantial iron bridge, measuring fully a quarter of a mile in length. The following mills were in operation in 1897:—Marian, Pleystowe, and Plane Creek. The private mills in the district are Habana, Farleigh, Nindaroo, Palmyra, Te Kowai, Meadowlands, The Palms, and Homebush. The railway connections with Mackay are one west to Mirani—22 miles—and south-west to Eton from Newbury Junction—22 miles. There is an extensive tramway system throughout the district, connecting with the mills.

TABLE OF DISTANCES: From Mackay to Meadowlands Mill, 3 miles; Racecourse, 4; Te Kowai, 6; Alexandra, 7; The Palms, 8; Branscombe, 9; Walkerston, 10; Pleystowe Mill, 12; Marian, 17; Palmyra, 9; Victoria, 21; North Eton, 21; Homebush, 16; Plane Creek, 25; Nindaroo, 10; Habana, 15; Farleigh and Ashburton, 21; Mirani, 22; Slade Point, 10; Elmee, 10; Orphanage, 9; Seaview, 11; Alligator Creek, 15; Louisa Creek (by steamer), 16; Louisa Creek (by road), 23; Sandy Creek, 10; Eungella Goldfields, 68; Nebo, 90; Grass Tree, 29; St. Helens, 50; Jollimount, 30; Proserpine (by steamer), 80; Port Newry, 23; Bowen, 118; Townsville, 221; Rockhampton, 193; Brisbane, 521.

ROCKHAMPTON.

The capital of Central Queensland; is situated on the south bank of the Fitzroy River, about 33 miles from its mouth, 18 miles in a direct line from the coast, and about 420 miles N.W. of Brisbane. As the port of Central Queensland, it is the outlet for the extensive Western lands—watered by the Barcoo, Alice, Thompson, South Diamantina, Herbert, and other rivers—comprising some of the richest pastoral country in Queensland. At the present time, the Queensland Central Railway terminates in the city, but a line is now in course of construction to connect the Central with the Emu Park Railway by a bridge over the river and thence to the new deepwater wharf at Broadmount. Considerable additions have recently been made to the water supply of the town, and in time of drought the danger of a short supply will be considerably lessened. The building trades generally are in an active state, as evidenced by the buildings lately completed and now in course of erection. The city has now an electric light service in addition to gas. The population in 1891 was 11,629, and is now about 16,000. The branch railway to Mount Morgan was opened in November last. A flour mill has been erected near the railway station by the Central Milling Company. There is now a minimum depth from the Bay to the town of 10 feet at ordinary low water springs, and steamers of 2000 tons now come to the town wharves.

CENTRAL SUPREME COURT—Judge, His Honour Mr. Virgil Power; Associate, B. J. Beirne; Registrar, etc., J. L. Blood-Smyth; Clerk, J. Comerford; Central Sheriff, P. W. Pears; Sheriff's Officer, J. Owen Baildon; Messenger, J. D. Gillespie; Tipstaff, T. Foley.
